1.PREAMBLE

This Tender Document is issued by the Society of **Siddhivinayak Residency A, B, C, D & E Wing Co-operative Housing Society Ltd.** (hereinafter referred to as ***"the Society"***) for the purpose of inviting bids from reputed and experienced developers / contractors / builders for undertaking the **Redevelopment of the Society building**, situated at Kalyan-Shil Road, Dombivli I, Pin – 421203, under the provisions of the **Maharashtra Co-operative Societies Act, 1960** and in accordance with the **Government of Maharashtra's Guidelines for Redevelopment of Co-operative Housing Societies**. The conveyance process of the Society is completed and the conveyance is in the name of the Society itself and has shown entry in 7/12 uttara.

The objective of this tender process is to appoint a competent and financially sound developer who possesses proven expertise in executing redevelopment projects of similar nature and magnitude, and who can deliver a modern, safe, and sustainable residential complex in line with the aspirations of the Society's members.

Key highlights of the project: -

1. Deemed Conveyance of the Building completed.
2. Name of the Society included on 7/12
3. Beside the station of proposed metro Line no. 12
4. Only 2.5 kms from both Dombivali and Kalyan central line railway stations
5. Only 50 minutes away from both Mumbai and Navi Mumbai Airports
6. Beside the proposed IT Park

This document outlines the terms, conditions, technical specifications, eligibility criteria, and evaluation process governing the tender. All interested parties are required to carefully study the tender document and submit their offers strictly in accordance with the prescribed format and within the stipulated timelines.

The developer shall verify the title, extent, and permissible use of the plots of land independently and work out the best offer considering the same after taking in to consideration the demand list of the Society. The developer shall ascertain the maximum height permissible at his own cost and full consumption of FSI will be developer's responsibility. It is clarified that no reduction in benefits under the developer's offer will be entertained due to inability to consume full FSI due to height restriction or for any other reason whatsoever. Kindly note that for inspection of the Society, the developer will

have to seek the necessary permission along with time slot from the Society Chairman / Secretary.

The Society reserves the right to accept or reject any or all bids, to negotiate or modify terms, or to cancel the tender process at any stage without informing and assigning any reason whatsoever.

Issued by:

The Managing Committee of **Siddhivinayak Residency A, B, C, D & E Wing Co-operative Housing Society Ltd.**

Date: - 01st November 2025

2.NOTICE INVITING TENDERS

SEALED TENDERS, in the prescribed format are invited on behalf of The Society, situated at and in and around Kalyan Shil Road for carrying out the work mentioned below, from competent developers who are experienced in carrying out the work of similar nature and magnitude.

2.1) **NAME OF THE WORK**: - Redevelopment of The Society, by utilizing entire plot potential plus additional FSI by premium / TDR available ancillary FSI and "Fungible compensatory F.S.I." on the property as per provisions of DCPR 2034.

2.2) **SCOPE OF WORK:** - The selected Developer shall do all these things and other related deeds entirely at his own cost, efforts, and responsibility. Under no circumstances will the Society members be required to be liable to or be called upon to make any payments for the project. Broad scope of work for the selected Developer shall be (but not limited to) as follows:

2.2.1) Visiting site to get acquainted with site conditions, surroundings, approach to site, etc. acquiring the necessary details, documents pertaining to the said plot from concerned persons/Authorities.

2.2.2) Check and confirm the right and title of the Society for carrying out redevelopment.

2.2.3) Carry out necessary corrections/ mutations and rectifications in the revenue records and property documents, if required or as may be necessary.

2.2.4) Obtain necessary permissions, NOCs, remarks and any other documents that would be necessary to establish the extent of redevelopment potential of the plot.

2.2.5) Prepare a detailed time schedule for various stages involved in the process of redevelopment such as planning design, approvals, vacating the premises, payment schedule, demolition of existing buildings, construction of new buildings together with all amenities & services, shifting back of members

and development, completion of project and handing over the same to the Society's all the members.

2.2.6) Submitting proposed building plans, elevations, and perspective view for the approval of the Society.

2.2.7) After approval of finalised Plans, Elevations, etc as above, a detailed presentation Model of appropriate scale to be made and provided by Developer to the Society at Developer's cost.

2.2.8) Execute and register Redevelopment **Agreement (Compulsorily in Marathi)** with the Society Members and pay stamp duty, registration charges, Goods & Services Tax (GST) and any other incidental charges in respect thereof. These charges to be borne completely by the Developer alone.

2.2.9) Prepare architectural layouts, plans and sections of the proposed buildings, parking arrangement plan etc. and submit them to the Society and modify the same, if necessary, to incorporate the suggestions of the Society.

2.2.10) Submit the plans approved and signed by the Society to the concerned municipal and government authorities and obtain necessary permissions, sanctions, concessions, facilities, and approval of plans.

2.2.11) Purchase the entire permissible FSI like plot premium, ancillary FSI and TDR and Fungible FSI and make payment of all premiums etc. for the same and obtain Intimation of Disapproval (IOD) for the project together with such other sanctions/ approvals/ clearances/ certificates etc. that may be required for the smooth redevelopment of the Society's property. Any cost incurred for these work shall be borne completely by the Developer.

2.2.12) Make agreed payments to the Society, Society members and Society's consultants for hardship compensation, displacement compensation (to and fro), professional fees etc. as per the terms of the Redevelopment Agreements that will be executed between the Developer and the Society.

2.2.13) Execute and register separate individual member agreements and pay stamp duty, registration charges, GST and any other incidental/mandatory charges on the same. All these charges to be borne by the Developer alone.

2.2.14) Furnish an irrevocable & unconditional performance bank guarantee in Society's favour for the specified amount and period.

2.2.15) Submit a proposal for demolition of existing buildings to the Society and on receipt of permission from the Society and demolish the existing structures. Kindly note that the time period between the submission of the proposal for demolition and actual demolition should be of minimum three months and more time if required.

2.2.16) Obtain Commencement Certificate (C.C.).

2.2.17) Construct a new building/s and other structures as per the approved plans, specifications and amenities and develope the Project within agreed time frame.

2.2.18) Complete all formalities as per the Tender Documents and Development Agreement, in respect of various Acts, relating to the Society, its existing members, tenants, the new entrants and municipal and other authorities.

2.2.19) Obtain total Occupancy Certificate, Building Completion Certificate, and handover the completed buildings to the societies members, along with all amenities committed and excepted within specified time period as per KDMC & MAHARERA Act.

2.2.20) The Developer shall obtain Completion Certificate (CC) and Occupation Certificate (OC), and ensure timely completion of the new Society Conveyance Deed, at their own cost.

2.2.21) The Developer shall bear the entire cost of registering the new society. The Society Members will not be liable for any expenses in this regards.

2.2.22) Rectify the defects in new buildings and premises noticed from time to time during the Defect Liability period.

2.2.23) The above scope of work gives a broad list of activities which are not necessarily sequential in time. The Developer may execute the activities in an appropriate sequence or execute multiple activities simultaneously so as to complete the Project within the specified time frame.

2.2.24) While discharging their responsibilities and liabilities, the Developer shall fully comply with the rules and regulations of the concerned governing authorities and such other authorities (as applicable) and shall strictly follow all statutory and legal provisions and fulfil all obligations as per the terms agreed between the Developer and the Society.

2.2.25) Submit to the Society the progress reports of the project at monthly intervals and in an approved format as agreed between the Society and the Developer and meet periodically to review progress and raise repetitive quality issues. This may also include catch up plan in case of delays; shifting of developer's supervisory personnel out only with the approval of the Society; nomination of management representative as point of contact.

2.2.26) Arrange for the safety, security, and insurance of the Society's Properties.

2.2.27) Provide specified facilities and technologies as mentioned in this tender document.

2.2.28) Meet requirements of all applicable statutory provisions, labour Laws etc. Comply with all applicable provisions of law, taxation, stamp duty, registration etc.

2.2.29) Comply with all obligations and functions under the provisions of the KDMC & MAHARERA ACT or the rules and regulations made thereunder.

2.2.30) Hand over certified copies of all as-built drawings, approvals, NNOs, permissions, remarks, records, warranties and guarantees.

2.2.31) Any member wishing to purchase additional area beyond the allotted increase shall receive a 25% discount on the prevailing rate.

2.2.32) The Developer shall contribute Rs. 3,00,000/- per member towards the Society Corpus Fund.

2.2.33) Soft Possession will be mandatory to all shop owners even before the final OC is obtained.

2.2.33) Honour, without fail, all terms and commercial commitments made to the Society

2.2.34) Complete the project in all respects in the agreed completion time period.

2.3) **COST OF BLANK TENDER DOCUMENT**: The cost of the Tender Documents is ₹ 50,000 (INDIAN RUPEES FIFTY THOUSAND ONLY) per set to be paid by a pay order (Non-refundable). The Pay Order shall be drawn in favour of "Siddhivinayak Residency A, B, C, D & E Wing Co-Op. Housing Society Ltd". The Tender Document will be issued in the name of the purchaser (Developer) and shall not be transferred to any other name.

2.3.1) **Schedule for Collection, Submission and Opening of Bids:**

d) Opening of Bids	28/12/2025	Sunday: 11:00 AM – 01:00 PM	Society Office
e) Further activities	shall be intimated on the date of Opening of Bids		

Note: - The Society reserves the right to alter / change / modify the dates and timings of one or more of the activities mentioned in the above table and no Developer can raise any objection towards the same.

Bidders may visit Society for Documents verification after prior intimation to the Society's Chairman/Secretary/Treasurer. If there is any Change in the Schedule or venue of any of the above activities, the Society shall communicate and will inform the same to the bidders by email or by making phone call.

2.4) **EXTENSION OF DATES:** - The Society has the right to extend the date of issuing tender documents, date of submission of tender or date/ time of opening of Tender. The interested tenderers will be intimated and informed of the same by email / letter to their Registered Office address.

2.5) **TIME SCHEDULE:** - The developer shall complete the project in all respects including procuring full occupation certificate within the Stipulated Completion time period of 36 months from the commencement of construction work on the site.

2.6) **DEFECTS/LIABILITY PERIOD:** As mentioned in Sections 5 & 6

2.7) **GUARANTEES FOR ANTI-TERMITE TREATMENT, WATER PROOFING / LEAKAGES AND ANY TYPES OF MAJOR OR MINOR REPAIRS: -** The developer shall give 10 years guarantee for anti- termite treatment. He shall also give 10 years' guarantee for water proofing, to cover all types of leakages and any types of major or minor repairs, 10 years' period shall be from date of full occupation certificate and physical possession of all the flats holders, shop and other units. Guarantees shall cover costs of labour and materials, wastage, transportation, taxes, etc. Coverage of all guarantees shall be complete and no extras shall be paid on any account refer points **5.1.7, 6.2 and 6.3.**

2.8) **VALIDITY PERIOD FOR THE OFFER: -** The offer quoted in the tender shall remain valid / open for acceptance for a period of 90 (Ninety) days from the last date of submission of tenders. Such Validity period may be extended by the prospective bidder at the request of the Society. The rights to accept / reject, any/all tenders shall vest with the Society. The Society does not bound

themselves to accept any bid against the tender, however high or low, and reserve the right to reject any or all the tenders received, without assigning any reason whatsoever. Decision of Society shall be final and binding on all concerned. Society also reserves right to revise / amend tender document, prior to last date for submission of tenders or even later (which will be communicated to all bidders over email / by letter). Revisions/Amendments will be informed to all tenderers, to enable them to incorporate the same in their offers.

2.9) **NO CONTRACTUAL OBLIGATION: -** It is clarified that this document is merely an Invitation to Tender and by merely purchasing, filling and submitting this document shall not constitute any contract or agreement between the prospective bidder and the Society. This bid shall be treated as an offer which may be rejected by the Society without assigning any reason for the rejection thereof.

Chairman / Secretary
Date:
For and on behalf of "Siddhivinayak Residency A, B, C, D & E Wing Co-op Hsg Soc Ltd."

3.INSTRUCTIONS

3.1) If any discrepancies / deficiencies are observed in the Tender Document or in the documents made available to the developer, the prospective bidder shall bring them to the Society's attention and seek clarifications.

3.2) FILLING UP OF THE TENDER:

3.2.1) Every page of the tender document shall be numbered sequentially with the numerator showing the page number and the denominator denoting the number of pages.

3.2.2) Tender Document shall be filled clearly and legibly. Overwriting is not permitted. If the bidder wants to make any changes / corrections to the details previously entered by him, he should strike out his earlier entry, enter the change / correction by the side and authenticate the same by signing at the place of the change / correction and affixing his official seal. Also kindly avoid spelling mistakes in the Tender Document so as to avoid ambiguity of understanding.

3.2.3) The bidder's offer shall be based on and in full conformity with the prevalent Development Control & Promotion Regulations (DCPR), rules and regulations of KDMC & MAHARERA and such other authorities as may be applicable including the modifications/ clarifications/ amendments etc. thereto which have been issued by the concerned authorities up to the last date of submission of bids.

3.2.4) The bidder shall fill the amounts / rates both in words and figures. In case of discrepancy between the figures and words, the amount/rates mentioned in words shall be binding.

3.2.5) In the interest of good governance, the bidder should disclose if any close relative of the bidder to a Committee Member of the Society.

3.2.6) Authorised Person shall sign and affix his/her company's seal on each and every page in the Tender Document, its enclosures, drawings, appendixes, pre-bid clarifications, addenda, corrigenda etc. (as applicable) as a token of acceptance by him/them of the written matter being part of the tender made to

the Society. The bidder shall also sign on every page of the tender and affix his company's seal wherever indicated in the Tender Document.

3.2.7) No extra claim made on grounds of any misunderstanding, incorrect information or insufficient description will be allowed. Should the bidder after studying the Tender Documents or after visiting the site, find any discrepancies, omissions, ambiguities, or conflicts, or be in doubt as to the meanings, he shall bring them to the Society's notice in writing, on or before the specified date and seek clarifications, failing which thereafter the claims of the bidder shall not be entertained and the same shall be deemed to have been rejected.

3.2.8) The tender documents shall be signed only by a person authorized to sign on behalf of the firm/ company. A copy of such an authorization must be enclosed with the tender. In case a person signs under a power of attorney and/or a resolution, a certified true copy of the same shall be enclosed with the tender document and the original shall be made available for verification.

3.2.9) If the bidder has any query, the same shall be submitted in writing at least 7 days before the final submission of tender closing date to the Society, who will give a written reply to the query. This reply along with the query will be circulated to all the Tenderers by the Society both of which will become a part of the Tender.

3.2.10) The Bidder shall bear all the costs associated with the preparation and submission of the bid and the Society shall not be responsible or liable for these costs, regardless of the outcome of the bid process.

3.3) SUBMISSION OF BIDS:

3.3.1) **Envelope 1**: - Eligibility, Qualification and Company documents along with any other document found necessary or important for evaluation. All the documents should be attested by the bidder and wherever required True copies should be submitted. The Developer shall also provide **detailed information of any ongoing legal cases** against them, and if there are none, shall submit an **Affidavit stating that no legal cases are pending**. It should also contain a covering letter mentioning the list of documents enclosed in the envelope. This envelope should be labelled as ***"Envelope 1 – Eligibility Documents"***

3.3.2) **Envelope 2: -** This envelope should contain documents related to the Technical Proposal / Project Concept like but not limited to Declaration by the Bidder, Technical Bid Form, Project proposals, Time Schedule and other technical data sheets as specified by the tendering authority. It should also contain a covering letter mentioning the list of documents enclosed in the envelope. This envelope should be labelled as ***"Envelope 2 – Technical Proposal"***

3.3.3) **Envelope 3: -** This envelope should contain the documents related to the Commercial Bid along with EMD of Rs. 1,00,00,000/- (Rupees One Crore only) by means of a Pay Order drawn in favour of "Siddhivinayak Residency A, B, C, D & E Wing Co-Op. Housing Society Ltd". It should also contain a covering letter mentioning the list of documents enclosed in the envelope. This envelope should be labelled as ***"Envelope 3 – Commercial Bid".***

3.3.4) **Envelope 4**: Shall contain Envelope 1, Envelope 2 & Envelope 3.

Important: - All Envelopes shall be properly sealed before submitting the bid. All documents enclosed in all the envelopes should be duly filled in all respects and signed and stamped by the concerned authorised signatory.

3.4) ADDENDUM/CORRIGENDUM WITH SOCIETY'S APPROVAL: Prior to the date of closing of the offer, the Society may issue Addendum / Corrigendum to clarify documents or to reflect modifications in the design or terms and conditions, etc. These Addenda / Corrigenda shall become part of the original tender document.

3.5) WITHDRAWAL NOT ALLOWED:

3.5.1) The Bidder will not be allowed to withdraw their bid against the tender, unless agreed by the Society.

3.5.2) The bidder/developer shall bear all costs associated with the purchase of Tender Document, site visits, search and verification of property documents, submission of his tender and the subsequent discussions, presentations, and negotiations. The Society shall in no case be responsible or liable to pay such costs regardless of the conduct or outcome of the Process to Tendering.

3.6) EVALUATION OF TENDERS:

3.6.1) After the bids are opened, a shortlist of bidders will be prepared based on their technical competence, organizational capability, financial standing, past experience in executing similar projects and their commercial offers. Preference may be given to bidders having experience in redevelopment of housing societies. At any cost, the final decision rests in the hands of the Society and no bidder shall have the right to take any objection in the decision taken by the Society.

3.6.2) Verification of the constitutional and financial documents of the bidding firm shall be carried out by the Society's legal and financial consultants. If additional information or documents are required the bidders shall forthwith provide the same to the Society.

3.6.3) Further verification of documents, negotiations, site visits, presentations and discussions shall be held only with the bidders satisfying desired criteria. Such shortlisted bidders may be asked to furnish a statement of commercial feasibility and provide information regarding the index parameters such as FSI, TDR, Premium, ancillary FSI and Fungible FSI etc. assumed by them while submitting their offers.

3.6.4) Bidders shall provide requested information or clarifications or substantiate the information supplied by them within the time frame specified by the Society. Failure to do so or persistent non responsiveness on part of a bidder during the process of tendering may result in disqualification of his bid. Any incorrect information/ documents will be sufficient grounds for rejection of the bid even if declared as a successful bidder at any time.

3.6.5) The bids may be rejected if the bidder: a) proposes any alteration in terms, time or conditions given in tender, b) proposes new terms or conditions, c) removes or replaces any pages of the Tender, d) does not attest all corrections and additions, d) submits incomplete bid or inadequate supporting documents, e) does not submit requisite refundable deposit or f) falls short of requisite credentials or minimum eligibility criteria.

3.6.6) Based on bid evaluation report received from the Society's legal and financial consultants in the aforesaid manner a shortlist shall be prepared at

the sole discretion of the Society from which ultimately a developer may be selected by the Society for the project

3.6.7) If any bidder tries to influence any representative of the Society or any of its members or its consultants in the activities of bid evaluation, bid comparison or award of contract or tries to seek special favours from them, his bid will be rejected.

3.6.8) The role of Advocate shall be that of the "Legal advisor to the Society".

3.6.9) The Society does not bind itself to accept any bid and reserves the right to accept any bid or reject any or all bids or cancel or postpone the redevelopment work or opt for alternative methods of redevelopment without assigning any reasons for the same and no claim shall be tenable in any Court of Law on these grounds. The submission of the bid by interested bidders would imply its/their acceptance of the Society's discretionary power in this regard. The Society also reserves the right to negotiate the terms and conditions and also the offers made by the short-listed bidders.

i) Advocate shall advise the Society through the process of Tendering and negotiations with the bidders to select the best offer for redevelopment. However, the final decision on selection of the developer shall rest entirely with the Society.

ii) The Society shall select a developer in accordance with the mandate of the majority of its members as per the provisions of the Directive under Section 79(A) of Maharashtra Co-Op Housing Societies Act 1960 dated 04.07.2019.

3.6.10) **Additional submission of documents:** -

The short-listed Bidders shall submit the following documents, when requested from Society:

i Statement of utilisation of plot potential.

ii Declaration that the bidder or any of their group companies/fully owned subsidiaries is not blacklisted or debarred by any govt. agency/ authority, which would prohibit him from developing such property and is entitled to bid for such projects.

iii Disclosure of any litigation pending by/ against the bidder or any of their group/fully owned subsidiaries in any court of law and information regarding complaints, if any, made against the bidder to KDMC & MAHARERA Authority.

iv Resolution from Board of Directors/ all Partners (as applicable) for bidding for the project

v Power of attorney/ Resolution etc of the signing authority, if applicable

vi. Counter guarantee/ confirmation from the bidder's parent company or group company as regards the fulfilment of the minimum eligibility criteria (in case the bidder is a part of a larger group or a sister concern and does not fulfil the minimum eligibility criteria).

vii. Any other information/ credentials which may stress the expertise or experience of the bidder.

3.7) PRIVATE AND CONFIDENTIAL:

The process of evaluation of tender and selection of developer shall be treated as confidential among the Advocate and designated members of the Society. Information relating to the evaluation and comparison of tender and recommendation concerning the award of contact shall not be disclosed to the bidder or other persons.

3.8) REGISTRAR'S CONSENT:

The short-listed bidder will have to make an arrangement to get sanction for his appointment from the **Dy. Registrar of Co-Op. Societies, H/West Ward as per the guidelines U/s 79 (A) of Maharashtra State Co-Op. Societies Act.**

4. COURT CASES

4. GENERAL CONDITIONS OF THE TENDER

5.1) DEFINITIONS & INTERPRETATIONS: - The following words and expressions shall have the meaning hereby assigned to them except where the context requires otherwise: -

5.1.1) DEVELOPER: - The term "Developer" shall mean the bidder selected as developer of the Society's plot and shall be deemed to include the proprietor / partners/ directors forming part thereof at the time of making the bid and their successors, legal representative, SPV, group entity and JV if any, present at the time of submission of bid, of the Firm or the company for undertaking the work and shall include their legal representative, employees and workmen engaged for the work. The term "The Developer" shall be synonymous with the term Builder, Successful Bidder / Successful Tenderer.

5.1.2) SOCIETY & THE EXISTING MEMBER / S: - 'Society' / 'Client' / 'Owner' means Siddhivinayak Residency A, B, C, D & E Wing Co-Op. Housing Society Ltd. The existing member/s shall mean the members of the Society whose name/s appear in the share / member's register i.e. I and J form in the Society records. Also note that the definition of Society shall also extend to any type of Consultant

5.1.3) LEGAL ADVISOR and CONSULTANT: - The "Legal Advisor" shall mean a firm offering legal consultancy/services or Advocate or Solicitor engaged by the Society to advise them on legal matters pertaining to the project. Also a Consultant shall mean any Individual or Firm appointed by the Society (with limited rights) for various purposes (Inspection / Consultancy / Technical Knowledge) during the entire course of the Redevelopment process.

5.1.4) CARPET AREA: - "Carpet area" or "MOFA Carpet area" as applicable to the existing members/tenants as referred to as Rehab Part shall mean the area (net usable floor area provided within a flat and at the same floor level, which is measured from wall to wall on finished/ plastered surface (before fixing wall tiles/ dado/cladding or similar treatment) and at a height just above the skirting level. It shall not include external or internal walls for the parts of columns which are contained within such walls, chajjas, ducts, elevational features and such other secondary areas or areas).

5.1.5) TENDER DOCUMENTS: - The Tender Document/s shall mean this Invitation to Tender, the Qualification Bid, Commercial Bid, their enclosures, Annexures or Appendices and entire tender document including general & special conditions and any written clarifications, addenda or corrigenda issued by the Society and/or the Developer before the bids are accepted.

5.1.6) REDEVELOPMENT AGREEMENT: - Redevelopment Agreement means the Agreement for Redevelopment of the Society that shall be entered into between the Society and/or existing members and the selected bidder after his bid is accepted and shall include and also the subsequent variations and amendments, supplementary agreement, deed of rectification, if any, mutually agreed between the Society and the Developer.

5.1.7) BANK GUARANTEE: - The selected bidder / Developer shall provide a **10-year Bank Guarantee** for the external and internal structural quality of construction (few points as mentioned in point 2.7). Construction shall be done using **modern methods** to minimize maintenance and repair needs.

5.1.8) SPECIFICATIONS: - Specifications means collectively all those instructions pertaining to carrying out any work, whether originally provided for in the Tender Document, Development Agreement, or as may be issued from time to time, by the Society. The same shall also include the latest additions (including all addenda, corrigenda) of relevant Indian Standard Specifications or other relevant codes.

5.1.9) CONTEXT: - Where the context so requires, words imparting the singular shall also mean the plural and words imparting the masculine gender shall also include the feminine gender and vice versa throughout the Tender Documents.

5.2) STATUTORY REGULATIONS: -

Development Control Regulations: -

5.2.1) All works shall be based on and in full conformity with the Development Control & Promotion Regulations (DCPR), rules and regulations of KDMC & MAHARERA and such other authorities as may be prevailing and applicable, including the modifications/ clarifications/ amendments etc. thereto which

have been issued by the concerned authorities during redevelopment work. The conduct of the project shall conform to the Real Estate (Regulation and Development) Act (with special reference to MahaRERA) and the Developer shall be responsible for all obligations, responsibilities, and functions under the provisions of the same.

5.2.2) If any of the applicable regulations is revised or amended after the bids have been submitted but before a Developer is selected, the bidders under consideration at that stage will be given an opportunity to submit their revised commercial offer after considering such revisions or amendments.

5.2.3) If there is any change in the regulations under which the bidder has made the offer due to which there is an increase in the Development Potential / F.S.I. that can be utilized on the Society's Plot, then in such event the selected bidder may utilize such additional Development Potential / F.S.I. only after giving **40% of the additional area or its equivalent value** to all the Society members. It is expressly clarified that there shall be no change in the offer made by the selected bidder in the event of reduction of Development Potential / F.S.I. due to any revision/amendment of the regulations or otherwise whatsoever.

5.3) SCOPE OF WORK: -

The Scope of work is as mentioned in the tender notice. (Refer point no.2.2)

5.4) OFFER OF ADDITIONAL BENEFITS: -

In his Commercial Bid, the bidder shall mention specific benefits that he proposes to provide to the existing members of the Society, in addition to the minimum benefits mentioned by the Society as their specific demand**.**

5.5) AGREEMENT FOR REDEVELOPMENT: -

5.5.1) If and when the necessary conditions specified herein are fulfilled by the selected Developer in the agreed time frame, the Society and the Developer shall enter into a Redevelopment Agreement with each other and the Developer shall forthwith register the same. If the Developer fails to sign and register the Redevelopment Agreement within the agreed time, his selection/appointment shall be cancelled and the Society shall be free to select any other Developer. The Developer shall not have any claims whatsoever against the Society.

5.5.2) Ownership of the Property: -

i. Notwithstanding anything else contained herein the ownership and possession of the property shall always remain with the Society.
ii. The Developers shall have only the license to enter upon the property of the Society to demolish and construct the new building as per the terms of the tender and development agreement.
iii. The Developer shall have only development rights to construct as per plans approved by the developer on the property to facilitate the development work.
iv. The Developer shall not mortgage or create any lien or encumbrance or any third party interest in any manner whatsoever on Society's plot or any part thereof or on the premises to be provided to the existing members of the Society.

5.5.3) Society's Legal Consultant shall prepare a draft Development Agreement for consideration by the Developer. The draft Development Agreement shall be generally in conformity with the tender document, the commercial bid and the terms & conditions agreed during the subsequent discussions / negotiations forming part of the bidding process. The Technical Specification shall be included as an annexure to the Development Agreement and shall form an integral part of the same. The Development Agreement may include the following, in addition to other relevant conditions:

i. Maximum total built-up area proposed to be constructed by the Developer with breakup of rehab area and sale area.
ii. The amounts of FSI of the plot and loading of additional FSI/ TDR presently taken into consideration on which the Developer’s offer is based.
iii. The MOFA carpet area to be provided to each existing member free of cost.
iv. One Car parking area each to be provided free of cost to all the existing members of the Society.
v. Entering into individual agreements for the flat/s / shop/s to be handed over to existing members.

vi. Hardship compensation, Displacement compensation including brokerage and registration charges, and shifting charges etc. and their stages of disbursement.

vii. The role and authority of Society's consultants, their fees and their stages of re-imbursements to the Society.

viii. Irrevocable & Unconditional performance bank guarantee and its terms of enforcement.

ix. List of amenities.

x. Work specifications, list of approved brands.

xi. Plans to be approved by Society or developer.

xii. Time schedule of work and terms for extensions.

xiii. Provisions of liquidated damages and termination of contract.

xiv. Terms and conditions for admitting new members

5.6) FINANCING THE PROJECT:

5.6.1) The Developer shall ensure that he has adequate funds from his own or allied sources for successfully completing the project in the agreed time frame.

5.6.2) The Developer shall not raise any loan/ finance by way of mortgage of the land or property of the Society or any part or portion thereof including the Society's rehab part i.e. the new premises to be provided to the existing members of the Society.

5.6.3) The bidder's ability to demonstrate his financial capacity will be one of the criteria before making the final shortlist of bidders.

5.7) UTILIZATION OF REDEVELOPMENT POTENTIAL:

5.7.1) The selected Developer shall be entitled to utilize the redevelopment potential which is mentioned in his Final Offer based on which he has been selected as a Developer. Such redevelopment potential may consist of plot FSI, Government FSI, Transferable Development Rights (TDR) plot premium FSI, ancillary FSI and Fungible FSI as per the Development Control Regulations in force at that time. After providing for the redevelopment potential that may be required for the Society's rehab part, the agreed balance redevelopment potential shall be available to the Developer to construct the sale part as per the provisions of the Development Agreement and other terms and conditions as mentioned throughout this tender document.

5.7.2) The Developer shall be responsible for the purchase of additional FSI, TDR and Fungible FSI. The Developer must purchase the entire permissible FSI, TDR, plot premium FSI, ancillary FSI and Fungible FSI and load it. The entire expenses for purchasing and loading the same shall be borne and paid by the Developer alone and the Society shall not be called upon to contribute anything in that regard.

5.7.3) If there is any increase in the redevelopment potential of the plot on account of any change in the Development Control Regulations, municipal regulations etc. and/ or any laws or rules and regulations pertaining thereto after the receipt of the Commencement Certificate for the Property but before the receipt of Full Occupancy Certificate or end of the stipulated time frame of the project, whichever is earlier, the additional plot potential shall belong to the developer and the utilization thereof shall be entirely at the discretion of the developer.

5.7.4) If there is any increase in the redevelopment potential of the plot on account of any change in the Development Control Regulations, municipal regulations etc. and/ or any laws or rules and regulations pertaining thereto after the receipt of Full Occupancy Certificate for the Property or end of the stipulated time frame of the project, whichever is earlier, the additional plot potential shall belong to the developer alone and shall be considered to be beyond the purview of the Development Agreement signed between the Society and the Developer. However, the RCC work shall be designed to accommodate additional floors, over and above the utilisation of the full development potential at the time of LOI. The Society may develop the same in future if the potential is available to the Society for whatever reason/clause/govt. regulation etc. after occupation and completion of the project and possession of the units.

5.7.5) The Developer agrees and undertakes that he shall not divert the plot FSI, TDR, Fungible FSI and/or the benefits of the same to any other project and shall not sell the same to any other developer or agency in any manner whatsoever.

5.7.6) The commercial offer submitted by the Developer shall be binding on the Developer and no reduction or changes in the same shall be allowed due to increase in the rates of FSI, TDR, Fungible FSI and/ or construction cost, taxes etc. in future.

5.8) PLANS PREPARATION: -

5.8.1) The Developer has to provide, free of cost, extra MOFA Carpet Area of at least 45% of the existing carpet area for existing members of residential and non – residential units.

5.8.2) All redeveloped flats / shops committed should be provided free of cost to all the members of the residential and non – residential units. The planning shall incorporate members' requirements, and developer shall also incorporate reasonable suggestions in planning and design as given by Society Architect. There must be adequate ventilation and natural light access points.

5.8.3) At least one stretcher / service lift should be provided per wing. In each wing the stretcher / service lift and minimum one passenger lift should be connected to the DG Set. The elevator should be directly accessible to all the residential floors, Podiums and Basements with Power Backup & CCTV installed inside the elevators.

5.8.4) Amenities as also Specifications for toilets, kitchen and other rooms shall be as per list of amenities attached. There shall be no discrimination between sale and rehab flats in terms of Quality and Standards.

5.8.5) The planning of the flats / shops for the existing members of Society shall be finalized in consultation with Society.

5.8.6) The developer shall ensure that all rooms of flats for existing Society members shall have window opening in front/ side/ rear open spaces as the case may be except for toilets. Proper care shall be taken to provide good ventilation and sunlight. The plan for proposed work must have approval from the Society prior to submission to KDMC or any other regulatory authority. All Common areas must have Ramps for wheelchair access, avoiding interlocking obstructions.

5.8.7) There is no restriction on planning of the sale component in terms of size, shape, area so far as they are approved by KDMC and any other regulatory authority. It will be at the discretion of the developer.

5.8.8) All rooms in residences will have internal clear height not less than as per DC rules from floor finish to bottom side (soffit) of the slab. All habitable rooms on top floors (i.e. immediately below the terraces) shall be provided with

over deck insulation for heat insulation and proper water proofing solutions to provide leakages.

5.8.9) Planning shall be done in accordance with present D. C. Regulations (DCPR2034) and the construction as per the approved plan.

5.8.10) Adequate Solar panels to be installed on the common open terrace, out of the reach of any of the individuals. The solar panels should be connected to common Society lightings, Lifts, CCTV and at least one bathroom (for hot water) in each flat / shop.

5.8.11) The new building shall include solar panels, rainwater harvesting system, lift, staircase, and terrace shed as per KDMC rules.

5.8.12) The building shall have independent and adequate underground and overhead water storage tanks for borewell / rainwater harvesting and municipal water to ensure 24-hour water supply. Rainwater harvesting system as per approved standards, to be provided by the developer.

5.8.13) Each shop should have its own toilet & bathroom facility.

5.8.14) The shutter width of each shop shall not be less than the existing one.

5.8.15) One Society office per wing shall be provided in the new building.

5.8.16) A Community Hall with a capacity of 200–300 members shall be constructed for society use.

5.8.17) Proper space shall be ensured for fire brigade and ambulance movement in case of emergency.

5.8.18) A security guard cabin shall be provided at the entrance gate.

5.8.19) The successful bidder / developer needs to ensure that there is no unauthorised construction carried out at any place in or outside the new building which may lead to any future complications to the Society members.

5.8.20) A compound wall shall be built around the complete premises of the new building.

5.8.21) One temple shall be constructed within the Society premises to accommodate the existing GOD Idols.

5.8.22) On appointment by the Society, the developer will prepare plan and its alternative along with elevation, perspective view to explain the scheme sufficiently, within one month. These drawings shall clearly show MOFA carpet

areas of all flats to be given to the existing Society members, parking layout and also other amenities / areas to be given free to them.

5.8.23) Play area for children shall be provided.

5.8.24) The developer will not be allowed to make any changes / alterations in the plan previously approved by the Society without written consent of the Society.

5.8.25) After handing over of new premises, if Government increases present F.S.I., or modifies the T.D.R./ Fungible F. S. I. rule in anyway, rights for the same shall remain with Society. The developer will have no right on such additional F.S.I. of T.D.R. He will be bound by such understanding as is reached while signing the contract agreement.

5.8.26) The name of the Society will be retained as it is.

5.8.27) There should be designated enclosure/room for storing/parking Wet and Dry Garbage bins for each wing/ tower. Garbage chutes can be provided to avoid unnecessary littering from the residents.

5.9) APPROVALS PROCEDURE: -

5.9.1) It is the sole responsibility of the Developer to coordinate with various authorities and owners of the neighbouring plots, if necessary, convert the plot into non-agricultural land, carry out subdivision/ amalgamation of plot/s as required and obtain the necessary permissions/NOCs/ clearances and approval of the building plans and project from the concerned authorities and owners of the neighbouring plots (if necessary) at his costs and efforts. If any special conditions are to be fulfilled, deposits are to be paid or guarantees are to be provided to the authorities while complying with such requirements, the same shall be the Developer's liability. All the charges, fees, premiums and penalties (if any) for obtaining the approval of the building plans and obtaining requisite neighbouring plots (if necessary) shall be paid and borne by the Developer.

5.9.2) The Developer shall obtain approval of the plans from the concerned authorities within the period specified in the Special Conditions of Contract. The work shall commence within the specified time period and continue in a conscientious manner without delays failing which consequences will follow.

Such consequences, after reasonable extension, will also include termination/ cancellation of the Redevelopment.

5.9.3) The Developer shall submit plans to KDMC on behalf of and in the name of the Society and obtain all approvals and permissions in the name of the Society and with prior consent of the Society. The Developer shall keep the Society and its Consultants fully informed about the progress of various approvals and permissions and share the approvals with the Society within 7 days from the dates of such approvals.

5.9.4) If any existing trees are required to be cut/ relocated, the Developer shall bring it to the Society's notice before making an application to the concerned authorities. Copy of permission shall be shared with the Society. All the trees shall be transplanted if at all it requires relocation as per Tree NOC from KDMC. All costs in this regard shall be borne by the Developer.

5.9.5) The Developer shall always keep the Society informed about the correspondence between him and KDMC/ government/ semi government/ Statutory/ approving authorities. He shall submit to the Society and the Consultant copies of all correspondence and documents exchanged between him and the government/semi government/ statutory and approving authorities. Such copies shall be certified by the Developer's architect as true copies and shall be submitted to the Society forthwith without delay and latest within three days from the date of correspondence made or received by him.

5.9.6) All Liaison work with the KDMC & Government or any other such Authorities shall be the total responsibility of the Developer. The Society/Consultant shall give all the co-operation in the matter, particularly in respect of any required documents etc.

5.9.7) The Developer shall not violate any provisions of the Development Control Regulations or rules or regulations of any approving or statutory authorities.

5.9.8) The Developer shall always act in a transparent manner and share all information pertaining to the redevelopment of the Property with the Society and keep them informed about all such matters.

5.10) **CONDITIONS FOR VACATING PREMISES:** The Developer shall complete the following activities at his cost before requesting the members to vacate their respective premises:

5.10.1) Sign jointly with the Society and register the Development Agreement, individual member agreements with all the members of the Society (Permanent Alternate Accommodation Agreement or PAAA) and Power of Attorney.

5.10.2) Submit the building plans to the Society and get the same approved by the General Body of the Society, after incorporating the members' suggestions, if any.

5.10.3) Obtain necessary clearances, permissions & NOCs from concerned authorities.

5.10.4) Obtain approval of the plans from KDMC for the entire permissible FSI potential.

5.10.5) Purchase and load entire FSI, TDR, Fungible FSI in the name of the Society.

5.10.6) Honour the financial commitments to the Society, its members and Consultants such as payment of agreed amounts of hardship compensation, displacement compensation, brokerage, shifting charges, professional fees of Society's Consultants, reimbursement of other miscellaneous expenses incurred by the Society etc as specified in the Commercial Bid.

5.10.7) Any other compliance as required under law prior to vacating the premises.

5.11. Only after the above conditions for vacating have been fulfilled by the Developer, members of the Society shall vacate the premises and hand over its premises to the Developer for the purpose of construction provided the Developer fulfils the following conditions:

i. The Developer gives a sufficient time period of at least three months for members to completely vacate their premises and successfully relocate elsewhere.

ii. Procure complete insurance as specified elsewhere in this document.

iii. Provide Performance Bank Guarantee of the specified amount to the Society before Development Agreement.

iv. Submit a detailed schedule of demolition and construction work along with stages of Approvals & Loading FSI until obtaining Building Completion Certificate (BCC) to the Society, Demolition of existing structures/ Construction of the proposed buildings shall commence only after the plot is vacated by the Society.

v. After obtaining the Vacant Possession of the Society's Plot in the manner stated herein the Developer shall demolish the existing structures and obtain the commencement certificate and thereafter immediately register the project with the Maharashtra Real Estate Regulatory Authority (MahaRERA).

5.12) APPOINTMENT OF CONSULTANTS: -

5.12.1) The Society may appoint Consultants/professionals (PMC) for specific tasks on subsequent redevelopment activities based on the decisions of the General Body at any time before the signing of the development agreement. This appointment share be done by the Society and the Developer shall have no interference / say in the appointment of the PMC. The Developer will have to bear the entire charges of the PMC charged till the time of successful handover of the new building by the Developer to the Society and needs to act upon any instructions issued by the PMC as authorised by the Society.

5.12.2) For the construction of the proposed buildings, the PMC / Society may issue instructions to the Developer from time to time concerning the quality and progress of work and the Developer shall be bound by such instructions. Such instructions may be for the following purposes:

i. Non provision of required inputs from the Developer
ii. Testing of materials or works
iii. Rejection and removal of inappropriate materials or works executed
iv. Opening up for inspection any work already covered up.
v. Amending and making good of any defects
vi. Deviations in specifications or quality of work
vii. Lapses/deficiencies in provisions for safety
viii. Progress of work and delays

5.12.3) Whenever the PMC / Society issues instructions, the Developer shall forthwith comply with and duly execute the same in consultation with the Society.

5.12.4) The PMC / Society may issue instructions through site reports/ memos, visit reports, emails or correspondence.

5.12.5) PMC's correspondence shall be limited to the site instructions only. All other contractual correspondence shall be between the Society and the Developer.

5.12.6) If at any time the Society / PMC finds the Developer's methods, materials, workforce or equipment to be unsafe, inefficient or inadequate, to achieve the quality of work or the rate of progress required, they may instruct the Developer to take necessary corrective measures to increase their safety, efficiency and adequacy etc. and the Developer shall comply with such instructions. Failure of the Society / PMC to issue such instructions shall, however, not relieve the Developer of his obligations to secure the quality, the safe conducting of the work and the rate of progress required under the Development Agreement and the Developer alone shall be and remain liable and responsible for the safety, efficiency and adequacy of his methods, materials, workforce, equipment and timely completion of the project.

5.12.7) The PMC shall act as a technical advisor to the Society. They shall neither substitute any function/s of the Developer's site personnel or his consultants nor shall he be responsible for the same.

5.12.8) Society may also appoint separate consultants to advise them in legal matters and matters related to taxation, finance, stamp duty etc. The Developer shall extend all cooperation and provide requested information to them.

5.12.9) Professional fees of the PMC and other specified consultants, together with any applicable taxes thereon, shall be borne by the Developer for the entire period till the project is completed, notwithstanding delays, extensions or grace period (even if they are authorized), if any. Such fees shall be reimbursed / released within seven days from the date on which they become due. Such Fees shall be

released to Society and Society shall then reimburse the same to the PMC and other specified consultants.

5.12.10) The professional fees of PMC and other specified consultants which are specified in the Commercial Bid correspond to the present redevelopment potential as per the prevailing DCPR and the Stipulated Completion Period mentioned in the Tender Document (excluding grace period and extensions, if any). GST shall be paid extra at the rates which will be applicable from time to time. At the time of signing a Development Agreement, if higher redevelopment potential is envisaged or longer time frame is permitted to the Developer, the fees of the PMC and other specified consultants shall be increased on pro-rata basis and mentioned in the Development Agreement.

5.12.11) If the actual potential of redevelopment exceeds that provided in the Tender Document, additional fees shall be payable to the PMC and other specified consultants on increased area on pro-rata basis. Similarly, if the actual Pre-Execution Period or Execution Period of the project exceeds that mentioned in the Development Agreement, additional fees shall be payable to the PMC and other specified consultants.

5.12.12) The Society may appoint additional independent consultants at its costs for carrying out review of the Developer's design, drawings and specifications: In such an event, the Developer shall provide a necessary design bases, designs, drawings and specifications to such consultants and shall extend necessary cooperation to the Society's consultants for facilitating such reviews

5.13) MATERIALS & SPECIFICATIONS: -

5.13.1) The quality and speed of the construction shall be the essence of the contract. There shall be strict adherence in respect of both the quality and speed. The developer is required to specify the time span, that he will complete the structure in and get occupation certificate.

5.13.2) The Developer is expected to follow detailed specifications used in normal trends and practice followed for a good modern building having such List of Amenities.

5.13.3) All the material / raw material to be used on site shall be of specified quality and shall conform to latest and relevant Indian Standards Specifications. For the guidance of the tenderer, some relevant IS codes are given in this tender.

5.13.4) The developer shall use material of best quality, as per the technical specifications and such certified by the Society.

5.13.5) Materials shall be used only from the list of approved materials/ brands. If a specified brand is not available, another equivalent brand, may be used only after the same is approved in writing by the Society.

5.13.6) The developer shall, it his own cost and without delay, supply to the Society, samples of materials proposed to be used in the work.

5.13.7) Independent tests and analysis of any of the materials may be done from time to time by a testing agency appointed by the Society. The Developer shall, at his own cost, supply test materials as directed by the Society. Should the result of any test be unsatisfactory to the Society, the entire lot of materials represented by such sample will be rejected.

5.13.8) The Developer shall submit manufacturer's test certificates for materials (as applicable) to the effect that the quality of the said material, is as per tender document to the Society/ consultant as and when such materials are received.

5.13.9) The finished level of paving in the compound shall be above the road level to prevent flood water from entering the compound.

5.14) WORK CHECKING

5.14.1) The Developer through his architect, structural engineer, site supervisor and such other consultant shall ensure that all necessary drawings and specification are supplied to his site personnel well in advance. The drawings and specification shall include all details and processes with adequate clarity so that there is no ambiguity and confusion.

5.14.2) The developer shall ensure that all work at the site is regularly checked by his architect, structural engineer, site supervisor and such other consultants.

5.14.3) All critical works like tying of steel for the RCC framework, brick work, mortar work, waterproofing etc. which are carried out in stages, shall be subjected to inspection by the Society / Consultant, at every stage of work. The developer shall give due notice to the Society in writing for such stage wise inspection. At any point of time, if the work is carried out without such inspection, then the Society (through its Consultant) may require the Developer, to uncover/demolish such work at his own cost for the verification by the Consultant and make good the same at his own cost.

5.14.4) The responsibility of inspection/checking of work at site shall rest entirely with the Developer and his consultants and not with the Society or the Society's Consultant.

5.14.5) The Developer shall submit a plan for Quality Control to the PMC and the Society which should be acceptable to them.

5.15) SITE RECORD

5.15.1) The Developer shall maintain a neat and legible record of all the personnel employed at the site and will have to produce the same on request by the Society. All Liaison work with the KDMC & Government or any other such authorities shall be the total responsibility of the developer, particularly in respect of any required documents etc.

5.15.2) The Developer shall maintain copies of various permissions, approved drawings, statutory documents, insurance covers and such other records at the site He shall also maintain a separate site instruction book to record instructions from the Consultants and visitors.

5.15.3) The Developer shall submit one set of all final drawings, calculations Architectural, Structural, Electrical Layout, Plumbing, Drainage & Water Supply work drawings and all other relevant drawings and documents as soft copy and a hard copy and original Municipal approval for Society's record, free of cost. Drawings shall be plastic coated.

5.15.4) The Developer shall bear all costs related to TDR, demolition, debris removal, stamp duty, taxes, and approvals from KDMC and Collector, and hand over copies of all relevant receipts and documents to the Society from time to time.

5.16) PROGRESS OF WORK: -

5.16.1) The Developer shall employ sufficient skilled and unskilled workmen on site to maintain the required rate of progress and to ensure good quality of work and required degree of workmanship. While planning his schedules, he shall consider the migrant nature of the workers and their shortage on occasions of farming seasons, festivals etc. and the effect of monsoons on progress.

5.16.2) The developer shall comply with all the provisions and subsequent amendments of all the applicable labour/ workmen policies and laws.

5.16.3) No Child Labour as prohibited by existing Labour Laws shall be employed.

5.16.4) It shall be the developer's responsibility to ensure full compliance with safety, security, regulations, and all statutory PF and all such other requirements in respect of labour or workforce employed by him. The developer shall comply with labour wages acts.

5.16.5) Any delay in the redevelopment project caused due to any labour issues (e.g. accidents, labour cases, etc.) shall be the responsibility of the Developer and the Developer will have to bear all costs related to the aforementioned issues and also the other costs arising due to the delay in the project (as per Commercial Bid).

5.17) SAFETY — FENCING, SECURITY AND LIGHTING: -

5.17.1) The developer shall provide and maintain at his own expense, all lights, guards, fencing when and where necessary or as required by the Society for the protection of the works.

5.17.2) All necessary safety precautions at the site shall be followed and adopted by the developer for which developer should appoint a Health & Safety Engineer (HSE) at site.

However, the Society shall be kept indemnified by the developer against any incidents occurring due to negligence or otherwise.

5.17.3) Developer shall ensure that there is no inconvenience or nuisance to the neighbourhood around the site while executing this redevelopment project.

All measures shall be taken by the developer to minimize environmental impact.

5.17.4) The developer is expected to take all precautionary measures during the process of demolition of existing Society building. The Society or its members will not be responsible for any damage, injury etc. caused during the said process.

5.17.5) To take care of any accident at the time of construction on site, the developer should take an insurance cover for contractors, subcontractors, labour along with works / plants / machinery / equipment's and material at site location of the project. Developer will be entirely responsible for the same.

5.17.6) The highest standards of safety shall be maintained by Developer all throughout the Redevelopment Project and best quality safety equipment shall be provided at all times and to all personnel as required. There shall be no compromise in safety matters whatsoever.

5.18) SANITATION

The developers shall, on his own, make all necessary provision for health and safety of his workforce and also appoint the HSE as stipulated in para 5.17 above. He shall provide proper latrines and urinals as per Model Rules for the Protection of the Health and sanitary Arrangements for workers employed and shall take all steps necessary to compel his workers to resort to such latrines and urinals. The developer shall provide adequate water supply (drinking and other) for the use of his workforce. The developer shall make arrangement for the treatment of sewage by providing necessary facilities. Rules and regulations of local authorities in regards to sanitation, prevention of communicable diseases and epidemics like Malaria shall be made applicable to the developer, and all the costs and any local taxes thereof shall be borne by the developer. The developer shall provide requisite medical facilities at site to all staff / workmen.

5.19) WATER, ELECTRIC CONNECTION

The developer at his, own cost, shall get all the connection i.e., water, electrical, telephone, cable T.V. disconnected before commencement of construction and

get them reconnected including payment of deposit along with gas (MGL) connection after the completion of the construction before handing over the possession to the Society. The developer shall pay all charges, deposits, fees for testing, installation etc., for all the utility services required for the project. Note that the MSEB Light Meters installed for each flat / shop should be "Non-Smart". Also the Developer must ensure that all types of meters (Electricity, Gas, etc.) are transferred in the name of the member before completing the handover process and all charges for this transfer shall be borne by the Developer.

5.20) UTILITY SERVICES: -

5.20.1) The Developer should provide necessary modern and latest infrastructure for facilities and services such as piped gas, telephones, cable/ satellite TV, fiber optic cable internet, Wi-Fi connectivity etc.

5.20.2) The conduits cables, ducts etc. to be provided for such utility services shall be laid in a systematic manner during the progress of construction and shall be properly marked for identification and location so as to avoid breakage of walls, ground surface etc. at a later date.

5.20.3) Certified plans/ line diagrams/details of all concealed/underground utilities etc. shall be provided to the Society.

5.21) COMMON AMENITIES AND FACILITIES: - Requirements regarding common amenities & facilities shall be as under:

5.21.1) All materials & facilities have to be as per latest, modern, aesthetic and best quality.

5.21.2) The Developer, at his cost, shall provide an air-conditioned office for the Society with all amenities, security cabins, common toilets, visitors' car parks etc. in the premises up to the maximum extent of area which is allowed free of FSI. The car parks to be provided to the Society's rehab part, Developer's part and the visitors shall be distinctly identified. The elevation, external facade and finishes and facilities in the common areas (entrance lobby, lift lobby, staircase etc.) of the Society's part and the sale part of the building/s shall be identical.

5.21.3) The terrace/s above the topmost floor as well as terrace/s at any level which have been approved with access from common staircase, lift or other commonly accessible area shall be treated as common amenities and they shall not be allotted to any flat purchaser/member.

5.21.4) All common amenities should be available to all the members of the Society and should not be restricted for the use of any particular flat owner.

5.21.5) The Developer shall provide Servants' toilets and such other facilities shall be provided at suitable places in the building in strict compliances with the KDMC rules and other statutory requirements.

5.21.6) The Developer shall provide a Refuge Flat at every seventh floor based on the guidelines of the National Building Code of India. The refuge area must be at least 4% of the habitable area it serves. There must be a clear, well-lit passage to the refuge area. The lift or staircase should not open directly into it, and the door must be accessible at all times for emergency use only.

5.21.7) The entries to residential and commercial parts of the building shall be separate. Water and electricity supply and meters for the residential and commercial parts shall also be separate.

5.21.8) The proposed building will be a certified green building thereby fulfilling all the requirements such as Sewage Treatment Plant (STP), rain water harvesting, solar equipment / solar panels provision etc.

5.22) WATER SUPPLY: - Requirements regarding water supply shall be as under: -

5.22.1) The Developer will provide adequate water supply connections from KDMC at his cost. The water distribution system shall be such that each flat/shop/ office would get water with required pressure and force.

5.22.2) Rainwater Harvesting as per the design prepared by approved consultants in the field shall be included in the redevelopment project.

5.22.3) Adequate number of bore wells along with booster pump, separate water storage facility (tanks), supply pipes and distribution system to ensure that bore well water does not mix with municipal water.

5.22.4) Adequate automatic pumps shall be installed for water transfer between tanks (including but not limited to the tanks from ground floor to the tanks on the terrace)

5.23) LIABILITY OF INSURANCE: - The Developer's responsibility and liability in respect of insurance shall be as under:

5.23.1) Before commencing the execution of work, the Developer shall purchase adequate comprehensive insurance cover at his own cost from a reputed company, in the joint names of the Society and the Developer, to cover accidental death, permanent disability, hospitalization, investigations, treatment etc. for the Society's members and employees as well as the Consultants and their representatives who are deputed at site or visiting the site, all the Developer's workers and site staff, visitors and third party from the time the premises are vacated up to the final completion of the project and handing over to the Society. It will include (i) Workmen Compensation Policy (ii) Third Party Insurance (iii) Contractor's All Risk (CAR) Policy, insurance against fire, earthquake and other natural calamities etc. and such other insurance policies as required by law. Copies of the requisite insurance cover should be given to the Society & PMC (if any), before commencement of demolition of the existing (old) building and on subsequent renewals.

5.23.2) Before commencing the execution of work, the Developer shall purchase adequate cover towards the professional indemnity policy for the designs supplied by various professionals working on the project.

5.23.3) All the insurance covers mentioned above shall be kept alive during the entire period right up to receipt of Full Occupancy Certificate and the full charge of maintaining the project/Society is handed over to the managing committee of the Society. The Society or its PMC (if any) shall, in no way, be responsible for any lapse in insurance, its adequacy and any claim arising out of such lapse shall be entirely the Developer's liability. The Developer shall indemnify and keep indemnified the Society and its Members from and against all claims in connection therewith.

5.24) STAMP DUTY, TAXES / DUTIES / REGISTRATIONS / OTHER OUTGOINGS: - All costs of the redevelopment project right from the beginning to handing over of the entirely redeveloped property back to Society, as described in these tender documents are to be borne by the Developer alone, including following: -

5.24.1) All charges/expenses including stamp duty, registration charges / fees and all incidental charges etc. for preparation, execution and registration of development agreement with Society and individual agreements of existing members, towards old area / incremental area to be given to existing members, permanent alternate accommodation, power of attorney, rectification deed if any, etc. and it shall include any GST / any such tax / charge applicable on the entire transaction in respect of the development of the Society's plot as well as in respect of providing the existing and extra carpet area to be handed over to existing Society members free of cost.

5.24.2) All payments, premiums / fees / duties / levies / taxes / cess (outstanding) and charges to be paid to KDMC, Maharashtra State and Central Government bodies etc. for, getting permission for redevelopment, I.0.D deposits, costs for procurement of F.S.I/T.D.R./Fungible area, approval of building plans, obtaining commencement certificate, occupational certificate and any other certificates needed for the redevelopment project.

5.24.3) Stamp duty, Registration fees/charges, out of pocket expenses, all statutory levies/duties/taxes, existing and applicable in future etc., up to date of handing over the redeveloped property to Society

5.24.4) All costs, charges, fees, expenses for vesting property in favour of Society as well as providing flats /offices/ non-residential units with old plus incremental area to individual Society members.

5.24.5) All deposits and charges payable towards water / electricity / telephone department / Mahanagar or other gas department/ KDMC/ Civil Aviation or any other body. Charges incurred / bills payable for utilities during redevelopment work

5.24.6) All taxes to be paid in respect of Land Under Construction (LUC), temporary, structures or offices, facilities, work areas etc., All license fees

etc. that may be demanded for the storage of various articles as per rules and regulations in force up to receipt of full occupation certificate.

5.24.7) All extra costs that may arise because of changes in legislations, rules / regulations, statutory requirements. etc. with respect to developer premium for F.S.I.

5.24.8) Infrastructure development charges if any imposed by any Government Authority, KDMC, etc.

5.24.9) In short, there shall be no liability on the Society / members to pay any kind of stamp duty, and or / registration charges, duties / taxes / charges /fees as mentioned in tender document.

5.25) ARTICLES OF VALUE FOUND: -

5.25.1) Articles of value such as gold, silver and other minerals of any description and all precious stones, coins, treasure relics, antiquities and other similar things which shall be found in under or upon the site, shall be the property of the Society.

5.25.2) Whenever such things are found, the Developer shall immediately inform the Society and duly preserve the same to the satisfaction of the Society and shall from time to time deliver the same to such person or persons nominated by the Society.

5.26) PROJECT COMPLETION AND EXTENSION: -

5.26.1) On receiving vacant possession of the entire building, the Developer shall demolish the existing structure(s) standing on the said property and commence the work of construction of the New Building(s), as per the sanctioned plans, and complete the work of construction. The Developer shall ensure that the building(s) are handed over to the Society with the Occupation Certificate within the period committed by the Developer in its offer or within such time periods as extended by the Society at its sole discretion.

5.26.2) The existing members shall be given possession only after receipt of full occupation certificate. In no case, the Developers' purchasers shall be given possession before original / existing members. The developer shall obtain full Occupation Certificate and only thereafter request the existing members to take possession of their duly allotted flats.

5.27) TEMPORARY ALTERNATE ACCOMMODATION: -

5.27.1) Once the approval (IOD) is obtained, the Developer shall write to the Society confirming that he is ready for disbursement of agreed amounts of the hardship compensation, displacement compensation, deposits and rents and other expenses as per this Tender Document and requesting the Society members to vacate. All members of the Society shall vacate the premises within the agreed period subject to fulfilment of the conditions for vacating the premises.

5.27.2) The Developer shall bear all the expenses to be incurred for the displacement of members viz displacement compensation, to & from transport of the member's belongings, registration and brokerage etc. Such compensation shall become payable to each member for the entire period from the date of handing over keys of each existing flat / shop to the Society, right up to taking possession of the new flats / shops including the notice period for repossession.

5.27.3) The Developer shall pay monthly rent and refundable deposit to each member as follows: -

Type	Monthly Rent	Deposit
Society Office	10,000/-	20,000/-
1 RK	10,000/-	20,000/-
1 BHK	15,000/-	30,000/-
2 BHK	20,000/-	40,000/-
Shop	25,000/-	50,000/-

5.27.4) The rent amount shall increase by 10% every year and the annual rent shall be paid in advance and without prejudice to the rights and remedies of the Society and the existing members, shall continue to do so for the entire period (including the delay/ extended period, if any) up to the possession of the new rehab flats.

5.27.5) The Developer shall pay Rs. 5,000/- per member towards shifting expenses at the time of vacating the premises and Rs. 7,000/- per member as shifting expenses at the time of handing over the premises.

5.27.6) If the Developer fails to complete the activities required to be completed within the agreed period so as to enable the members to vacate their premises, then without prejudice to the rights and remedies of displacement compensation payable to the members for the first year itself shall be escalated pro-rata at an agreed rate.

5.27.7) In the event Developer fails to provide the necessary amounts from time to time to any of the members' then consequences will follow which will include invocation/ encashment of Bank Guarantee and termination/ cancellation of the Development Agreement.

5.27.8) The Developer shall complete the project within 36 months as per RERA guidelines, and provide a written guarantee to that effect.

5.27.9) In case of failure on the part of the Developer to complete the project within the specified time period, the Developer will have to bear the rents and other incurring expenses for the entire remaining time period, till the completion of the project.

5.28) TERMS FOR EXISTING MEMBERS:

5.28.1) The Developer shall provide free of cost on ownership bases, flats to the existing Members of the Society, in the form of self-contained units complete in all respects including agreed amenities and facilities.

5.28.2) The Developer shall provide the agreed MOFA carpet area (as per the definition applicable to the Rehab Part) to all existing members within their respective premises.

5.28.3) Before the plans of rehab flats are submitted for municipal approval, they shall be certified for carpet areas by the Society and its Consultants, if any.

5.28.4) Allotment of rehab flats / shops to all the existing members in the proposed building shall be finalized by the Society in advance by means of a lottery system. Developer shall not directly allot any flats to any existing member. Allotment of car parks to the exiting members shall be done by the Society.

5.28.5) The Developer shall strictly adhere to the schedule of Payments to the Society and existing members, and delivery of the flats to the existing members.

5.28.6) Carpet area and floor to floor height of typical (representative) rehab flats shall be physically measured and certified by Architect appointed by the Society and the same shall be subject to verification for deficiency with the actual carpet area. If there is any deficiency in the physically measured carpet area, then the Developer shall be liable to pay compensation to such Existing

Members for such difference in area at a rate which shall be decided at the time of finalizing the Development Agreement. However, in case the actual area is found to be more than the agreed carpet area, the Developer shall not be entitled to claim compensation for the same and such additional area will become available to the concerned members free of costs.

5.28.7) The existing members shall not be called upon to occupy their new flats unless Full Occupancy Certificate is obtained, water, gas and electricity connections are obtained, all amenities and services are provided, "No Dues Certificate' is submitted by the Developer to the Society and all Stop Work Notices (if any) are completely withdrawn by the concerned government authorities.

5.28.8) The Developer shall hand over the possession of the new premises to the existing members free from any encumbrances.

5.29) TERMS & CONDITIONS FOR NEW PURCHASERS: -

5.29.1) The Developer may start selling his sale component only after he has obtained the commencement certificate and the project is registered under the Real Estate (Regulation and Development Act, 2016) and rehab flats and car parks have been allotted to the existing members and individual Agreements with all the existing members are stamped, executed and registered.

5.29.2) The Developer will be free to sell flats/shops/offices as per DCPR 2034 from the agreed sale portion to any interested person, subject to the provisions of Real Estate (Regulation and Development) Act, 2016 (Maha RERA), Maharashtra Co-op. Societies Act, 1960, and after following the proper procedure, as may be prescribed in such acts and regulations from time to time.

5.29.3) The flats shops/ offices which will be sold to new purchasers shall be constructed strictly in accordance with the approved plans and permissions from concerned authorities. The Developer shall not carry out any addition or alteration to those flat shops/ offices or enclose ducts, open spaces etc. and shall also include a clause in their Sale Agreements/ Deeds prohibiting for the new purchasers from doing so after sale of the flats/shops/ offices. He will also include a list of dos and don’ts, which shall be provided by the Society, such terms shall be binding on all members including new purchasers.

5.29.4) The Developer shall not sell or allot to new purchasers those car parks which have been sanctioned by KDMC as visitor's car parks.

5.29.5) The Developer shall not sell / allot open spaces, common amenities and common areas (including terraces) to new purchasers.

5.29.6) New purchasers who would pursue residential flats shall not use them for commercial industrial office purposes or as go-down / warehouse or any other non-residential user whatsoever. New purchasers who would purchase shops / offices shall not use them for any purpose which is prohibited as per the provisions of the Tender Documents and also as per the Society's Act. The Developer shall include a clause in their Sale Agreements/Deeds prohibiting the New purchasers from doing so after purchase of flats/shops/offices.

5.29.7) No area or part thereof shall be sold, used or given on rent for any illegal/ nefarious/ immoral or unlawful activities.

5.29.8) The final draft of the sale agreement and possession letter between the Developer and his purchasers shall, prior to execution thereof, be provided to the Society for their reference and record.

5.29.9) The new members shall be inducted by the Society only after the Developer has obtained Full Occupancy Certificate, handed over possession of flats/shops/ offices to the existing members and completed all legal formalities.

5.29.10) The new purchasers shall become members of the existing Society only and shall abide by the prevailing rules, regulations and byelaws of the Society. It is clearly understood that no new Society shall be formed without the consent of the existing members and the existing Society. For admitting new members, the Society may insist upon the following: -

i. Membership fees.
ii. Pro rata (per Sq. ft of the carpet area) contribution in relation to the amount standing in the books of accounts of the Society against the appropriate funds as on the date of the Commencement Certificate and which amount shall be collected by the Developer and paid to the Society prior to such purchasers being made members of the Society.

This will be a pre-condition for the admission of a new purchaser as a member of the Society. Developer alone shall be liable to pay these amounts to the Society. It shall be the responsibility of the Developer to recover such amounts from the new purchasers out of his sale part.

5.29.11) If any of the flats/shops/ offices coming to the share of the Developer remain unsold for a period of 12 months from the date of Full Occupancy Certificate having been obtained, then in that event, the Developer and the Society shall come to a consensus as to what the further process should be followed and the agreed process will be binding on both the parties.

5.29.12) The Developer shall at no cost give the Sales Office on rent / lease / for temporary use to any party thereof during the entire redevelopment period till the time of handing over the Society. The sales office should either be demolished after handing over the Society or it should be handed over to Society for Society's use.

5.29.13) **Amenities / Its Qualities and Construction Quality for the Flats of existing members shall not be of inferior quality relative to flats for Sale Area. All should be exactly identical for existing members and sale area occupants. In case of any discrepancy is found, then the Society reserves the full right to cancel the agreement and change the Developer without any compensation to the defaulted Developer.**

5.30) LIQUIDATED DAMAGES FOR DELAY (refer para 6.4):

5.30.1) If the Developer fails to execute, complete and deliver the work within the specified Execution Period, he shall be liable to pay to the Society liquidated damages at the rate specified elsewhere in the Tender Documents for such default and not as penalty. These shall be without prejudice and over and above various other compensations payable to the Society/ members/ Society's consultants arising out of extension of time and also without prejudice to the other rights and remedies of the Society.

5.30.2) The Society may, without prejudice to any other method of recovery, deduct the amount of such damages from the bank guarantee/ security deposit or any money that may become due to the Developer.

5.30.3) If the Developer fails to complete the project within 36 months, the Bank Guarantee shall be encashed by the Society.

5.30.4) In addition to the above, in the event of unreasonable delay, the Society may terminate the contract.

5.30.5) Enforcement of such liquidated damages shall not relieve the Developer from his obligation to complete the works or from any other of his obligations and liabilities as per the Development Agreement.

5.31) DEFECT LIABILITY (refer para 6.3):

5.31.1) Defect Liability period shall be as stipulated elsewhere in this document and shall commence from the date of Full Occupancy Certificate as obtained from KDMC or the date of repossession (whichever is later). During this period, if any defects or deficiencies are found in the construction work carried out by the Developer in terms of faulty materials or workmanship, the Developer shall rectify the same at his cost and efforts to the satisfaction of the Society within a reasonable period of time.

5.31.2) The Society shall give notice of observed defects/deficiencies to the Developer. Previous acceptance of any work shall not constitute a justification for any defects, which may appear at the time of handing over of project or later during the defect liability period. The final acceptance shall not be binding or conclusive upon the Society, should it subsequently notice that the Developer has supplied inferior material or workmanship or has departed from the terms of the Agreement should such a condition appear, the Society would have the right, notwithstanding final acceptance & payment to cause the work to be properly redone in accordance with the specifications at the expenses of the Developer.

5.31.3) Neither the acceptance of satisfactory completion nor the act of physical possession of the members flats nor any provision in the Agreement shall relieve the Developer, of the responsibility for the inferior or poor quality of materials or workmanship unless otherwise specified, he shall remedy any defects/ seepages/leakages due thereto and pay for any damage to other work resulting there from, which may appear within the specified Defect Liability Period. If the Developer fails to repair such defects/ damage, the Society shall be entitled to receive appropriate compensation and further the Society may carry out repairs by using the Security Deposit and retained portion of the Bank Guarantee paid by the Developer. The balance of the security deposit and the retained portion of the Bank Guarantee will be released to the Developer only after this 'Defects Liability Period'.

5.32) FORCE MAJEURE: -

5.32.1) Force Majeure shall mean any circumstances which prevent or impede performance of the contract, including but not limited to any of the matters listed below: -

i. War, hostility, enemy action, terrorist attack, Riot, hostility, insurrection, civil commotion or any such national emergency.
ii. Earthquake, flood, tempest, lightning or any such other natural calamity.
iii. Accident, fire or explosion on the site, not caused by negligence of the Developer.
iv. Law or order of any Government or Government department, or any injunction or stay which impedes or delays the wars, not caused by default of the Developer.
v. Denial of the use of any railway, port, road transport, airport, shipping services or any other means of public transport.
vi. Litigation caused by existing members of the Society leading to stay or stoppage of entire work.
vii. Pandemic/ Epidemic leading to national emergency/lockdown.
viii. Any of the above-mentioned circumstances shall constitute a Force Majeure condition provided the same materially prevents or impedes performance of the Contract.

5.32.2) A mere shortage of materials, utilities or labour shall not constitute Force Majeure, unless such circumstances are created due to any of the above Force Majeure. The Developer shall, within seven days from the date of occurrence of the hindrance, intimate to the Society in writing giving details of the circumstances constituting force majeure conditions including their dates of onset and removal. The Society's acceptance of the force majeure situation is necessary. In such circumstances, liquidated damages shall not be payable.

5.32.3) However, the displacement rentals and cost shall have to be borne by the Developer during the period of operation of any Force Majeure event, without exception.

5.33) DEVELOPER'S RIGHTS: -

The developer shall be aware that the offer and acceptance thereof by Society shall not create any right of whatsoever nature in the said plot or the existing building or any of the flats / offices and the developer agrees, not to make any such claims on the said plot or the said building/s or any of flats/offices. The developer's, right if any, is limited to the redevelopment work by demolition of the existing building/s and construction of new building/s on the said plot, in terms of approved plans with right to sell only the additional area, remaining after providing the new flats / shops / offices to existing members, but excluding common areas like terrace, lift, lobbies, etc. Developer shall not earn any revenue including from sale of car parking areas as stated in Maha RERA other than from the saleable component as above.

5.34) CANCELLATION: -

As shall be mentioned under Development Agreement.

6. SPECIAL CONDITIONS OF THE TENDER

These Special Conditions of the Tender are to be read in conjunction with the General Conditions of the Tender specified elsewhere in the bid document if there are any conflicting provisions between General Conditions of the Tender and Special Conditions of the Tender, the provisions in the Special Conditions of the Tender shall take precedence over the provisions in the General Conditions of Contract.

6.1) TIME SCHEDULE:

The Developer shall procure all the requisite permissions including Sanctioning of Plans and, IOD and all other requisite permissions within 6 months from the date of the execution and registration of Development Agreement. Upon receiving the IOD, the Developer shall furnish a Certified Copy of the Sanctioned Plan and IOD to the Society (ORIGINALS to be submitted after completion of the Project) and shall execute and register the Agreement for Permanent Alternate Accommodation with the members of the Society. Further the developer shall pay the agreed hardship allowance, rent, transportation charges, and brokerage to the existing members of the Society and the members of the Society in turn shall vacate and hand over the possession of their respective flats in the Society to the developer within 3 months from the intimation about the IOD being received from the developer to the Society subject to the execution and registration of the Agreements for Permanent Alternate Accommodation and subject to receipt of the aforesaid payments. Upon receiving vacant possession of the Flats of all members of the Society, the Developer shall demolish the existing building(s) and shall obtain Commencement Certificate within 3 months from the date the Society hands over vacant charge of the said Plot to the Developer. The Developer shall complete the project within 36 months as per RERA guidelines or within such time periods as extended by the Society at its sole discretion.

6.2) PERFORMANCE BANK GUARANTEE:

6.2.1) The Developer shall give security in form of irrevocable & unconditional performance bank guarantee for an amount of 10% of the project cost, from a nationalized bank in favour of the Society of the specified amount which shall remain valid for the entire Execution Period and the specified Defect liability period. Such a guarantee shall be provided before the Society hands over the vacant possession of the Society's Plot to the Developer. The draft of such bank guarantee shall be subject to approval by the Society. 50% of this guarantee shall be released on successful handover of the Society along with all necessary Completion Certificates.

6.2.2) The balance 50% of the performance bank guarantee shall be retained as security deposit for the defect liability period and will be released only at the end of the Defect Liability Period, subject to satisfactory rectification of defects, if any, attributable to the Developer.

6.3) DEFECT LIABILITY PERIOD:

Defect Liability Period shall be 120 months from the date of Full Occupancy Certificate or from the date of repossession, whichever is later.

For specific items as below the DLP shall be:

i. For Waterproofing: 10 years
ii. For Anti-termite: 10 years
iii. For PCC and RCC Works: 15 years
iv. For Lifts: 15 years
v. For electrical wiring and cabling: 10 years
vi. For general items, fittings and fixture: 7 years

6.4) LIQUIDATED DAMAGES: The Developer shall be liable to pay the following amounts to the Society which shall be over and above various other compensations payable to the Society/members/Society's consultants arising out of delay and shall be without prejudice to the other rights and remedies of the Society: -

6.4.1) If the Developer fails to complete the project within 36 months, the Bank Guarantee shall be en-cashed by the Society.

6.4.2) For any delay beyond 36 months, the Developer shall pay a penalty of Rs. 10,00,000/- (Rupees Ten Lakhs only) per month for an additional grace period of 6 months.

6.4.3) If the project is delayed beyond 42 months, the penalty shall increase to Rs. 15,00,000/- (Rupees Fifteen Lakhs only) per month for the next 6 months.

6.4.4) If the Developer fails to complete the project within 48 months, the Society shall have the right to appoint a new developer to complete the project.

6.5) COMPENSATIONS TO THE SOCIETY/ MEMBERS/ SOCIETY'S CONSULTANTS: -

It will be mandatory for all the members of the Society to clear all their dues such as Property Taxes, Balance Loan if any, Society Maintenance, Light Bill etc. in respect of their existing premises of the Society, before they are handed the possession of the new flat / shop. In case if any member fails to clear any of his dues, the Society will not issue the No Objection Certificate (NOC) and No Dues Certificate (NDC) to the member and the Developer and in its absence the Developer shall not hand over the possession of the flat / shop to the concerned member. This clause needs to be incorporated in the Individual Development Agreements.

6.6) UTILIZATION OF AREA: - The proposed redevelopment shall be done along the following lines: -

6.6.1) No area or part thereof shall be sold, leased or rented out for purposes of hospitals, nursing homes, warehouses, flour mill, hotels (lodging/ boarding), restaurants, liquor bars, liquor shops, chicken/ mutton/ fish selling/ storage shops, eateries, pathological lab. The proposed mode of commercial utilization shall be subject to approval of the Society.

6.6.2) Mobile telephone shelters/ towers and hoardings shall not be erected within the premises of the society itself.

6.6.3) Utilization of FSI shall be strictly in accordance with the applicable rules, regulations and bye-laws and shall be subject to approval of the Society.

6.7) REQUIREMENTS FOR PLANNING FOR REHAB PART: - The dimensional and planning preferences for the Rehab Part shall be is under: -

6.7.1) The floor-to-floor height for flat shall be minimum 10' (ten feet) with clear internal height will be as per DC rules of TP.

6.7.2) The thickness of walls shall not be less than the thickness specified by the municipal authorities.

6.7.3) All flats shall have adequate light and ventilation.

6.7.4) The wet areas (kitchen baths, toilets etc.) shall be planned in such a way that they are one above the other so that there is no water seepage from a wet area into habitable rooms.

6.7.5) Adequate utility areas shall be provided in the flats for various appliances such as washing machine, refrigerator, dishwasher etc. and day-to-day functions with provision of the necessary plumbing drainage and electrical connections.

6.7.6) The common terraces and common areas shall be planned in such a way that the right of access remains with the Society and they are easily accessible by the members of the Society.

6.7.7) All services (electrical, plumbing, telephone, firefighting etc.) shall be provided through ducts only as per DC rules of TP.

6.8) EXIT CLAUSE:

Further, all members of Society have rights to sell their flats / shops at any time deemed fit without any conditions from the developer and/or Society etc. to any person / member.

6.9) PENALTY: -

By any reason if the Project is not completed within the committed period from the execution of the Development Agreement as provided hereinabove then in that event without prejudice to the other rights and remedies of the Society, the Developer shall be liable to pay a monthly penalty as per the Development Agreement to the Society till the actual physical possession along with the Occupation Certificate to the members of the Society. The payment of penalty is in addition to the liability of the Developer to pay monthly compensation in lieu of temporary alternate accommodation during the transitional period.

6.10) RECTIFICATION OF DEFECTS;

The developer shall keep ready a team of one carpenter, one plumber and one electrician for 24 (Twenty Four) months after giving possession of flats / shops / offices to Society members, to take care of the complaints, if any.

6.11) Only after the development agreement is registered, the developer will be allowed to put up a board stating that project is managed by him. During construction stage, developer will be permitted to put up a display board on site indicating project details and names of consultants. Other than that developer will have no right to put up signboards, hoardings after handing over the flats, shops, units to the Society members on getting full occupation certificate. Under no circumstances, any advertising/ commercial /revenue generating hoardings, banners, signboards will be permitted.

7. BRIEF TECHNICAL SPECIFICATIONS

All work, shall be carried out in confirmation with Indian Standard Specifications (ISI), National Building Code and other national standards. These specifications are not intended to cover the minute details. The work shall be executed in accordance with best modern practices. All codes and standards referred to in these specifications shall be the latest revision thereof. Highly skilled and experienced workers shall be employed to carry out the works.

The structures shall be designed as per the I.S. codes of practice for dead load, live load, earthquake load, Wind load etc.

7.1) Soil Investigation: - The Developer has to get soil tested from Soil Expert. Soil investigation will be carried out at site to ascertain the safe bearing capacity of the soil or the depth of pile foundation / open foundation. Pile depth shall be decided in consultation with soil expert and RCC consultant. Piles shall be cast in situ with Rotary Rigs unless otherwise specified by expert.

7.2) Pile Foundation: - The foundation system will be pile foundation with drilled cast-in-situ piles in as specified by Structural Engineer. The piling, if and where required, shall be done as per IS 2911 and shall be of required diameter as per structural design of specified diameter or as directed, placed through steel shell sunk to required depth through all strata. The work shall be done as per soil consultant's recommendation and as per RCC consultant's design.

7.2.1) Concrete mix design, Reinforcement details, pile cap size, Reinforcement etc., to be got approved from RCC consultant.

7.2.2) Load test if insisted by RCC consultant, same shall be as per IS 2911 part 4 to confirm its design capacity.

7.2.3) The Diameter of Bore, concrete mix of pile, pile caps steel (T.M.T.) reinforcement have to be provided as per RCC consultant drawings and schedule.

7.3) Anti-termite treatment: - Anti termite treatment in the soil shall be carried out as per the requirement of Society's Architect. Ten years' warranty shall be obtained from the agency carrying out Anti termite treatment work.

7.4) Material: - The materials such as water, sand, and aggregates to be used for construction purpose shall be clean and free from all types of impurities. The developer shall get the water to be used for mixing, tested in an approved laboratory before using it in the work. All raw materials i.e., cement, sand, aggregates, and reinforcement shall be tested at approved laboratories at regular intervals, at developer's cost and test certificates shall be submitted to Society. Any Material not adhering to standard, shall be removed from the site by developer at his cost.

7.5) Sand: - River sand from approved source shall be used for plastering purpose. The sand if tested in laboratory should give desired results for module tests etc. 'No earth lumps or mud mix will be allowed. Sand used to be free of any soluble impurities like Sulphur etc. River Sand is recommended. If asked by supervisory staff, the sand will have to be washed clean until it meets the recommended standards.

7.6) Aggregates: - Coarse Aggregates shall be from approved and shall have sharp edges, black in colour and of approved size (As per standard specifications).

7.7) Cement: - Cement of '53 Grader to be used for R.C.C. For plastering, masonry work and tiling purposes 43 Grade cement shall be used. 53 Grade cement shall conform to IS:12269, while 43 Grade shall conform to IS: 8112.

7.8) RCC work: -

7.8.1) RCC design shall conform to latest IS code with special reference to the earthquake stability. The RCC work shall be carried out strictly as per the RCC drawing and schedule supplied by RCC consultant. All the concrete used for the R.C.C. work shall be in mix design concrete. All lap, bindings, bonds, chairs shall be as per the Standard drawing' furnished by the RCC consultant. No

concreting is to be done unless reinforcement is verified and certified by RCC consultant appointed by developer (with Society's consent).

7.8.2) Earthquake Resistance / Stability Certificate for each Building /Wing duly signed by Structural Consultant to be provided to Society during handing over of the project.

7.8.3) Necessary form work shall also have the approval of RCC consultant. Best quality metal plates, metal props, metal purlins, pins shall be used. Only metal adjustable cross bracings shall be used for centering work.

7.8.4) 'Curing' for RCC slab shall be 21 days from casting period. Columns, beams, chhajja, shall be wrapped in Hessian cloth for proper curing.

7.8.5) De-centering shall be done strictly as per the RCC consultant's instructions.

7.9) Structural Concrete: -

7.9.1) All concreting work shall be as defined in Indian standard hand book SP-23. However, adequate numbers of concrete cubes as per the requirements of I. S Specification IS516 have to be tested and shall have satisfactory test results. Otherwise, the concerned concrete portion will have to be dismantled and recast at developer's cost and risk.

7.9.2) If RMC is used for concreting, then concrete cubes shall be taken on site and tested by developer. Results provided by RMC companies shall not be accepted.

7.10) Cube Testing: - Testing of cement concrete cubes etc., shall be done at each concreting stage.

7.11) Steel Reinforcement: -

7.11.1) Shall conform to the grade and diameter as stipulated in the detailed RCC Design. The Developer shall submit the manufacturer's test certificate for steel to Society.

7.11.2) Reinforcement shall conform to I.S.1786 and shall be corrosion resistance steel (R/S 40equivalent) Reinforcement bending shall be as per IS. 2502.

7.12) Teakwood to be used, shall be well seasoned, free from knots, free from white ants and should have been cut from full grown trees. All ingredients such as water, oil, etc., shall conform to standard code.

7.13) Damp Proofing: - Subsurface moisture protection shall be ensured through appropriate damp proofing, water proofing and sub surface drainage, which shall remove Water from proximity of foundations and subsurface slabs.

7.14) Masonry Work: - Solid concrete blocks / Bricks to be used for external wall. For internal partition walls, If light weight concrete blocks AAC blocks such as "Siporex Aerocon "Fly-o-Crete" or equivalent quality are to be used for masonary work in place of bricks prior approval of Society/P.M.C. shall be taken in writing.

Note: Mivan Construction of specific internal walls to be executed as jointly decided between Developer's Architect and Society Architect. This will eliminate future internal modifications and alterations by individual residents.

7.15) External Plaster: - External Cement plaster on walls shall be minimum 20 mm thick in double coat finish with part texture and balance in sand face finish in C.M. 1:4. At the junction of the R.C.C. members and masonry work, appropriate water proofing chemical / polymer slurry shall be filled up with application of chicken mesh / fibre so to avoid the development of cracks at the junctions in future.

Note: All external surfaces of buildings and structures to be finished in 'Spectrum' finish of approved design and colour. This will eliminate need for external plastering in future. Only periodic painting will need to be done.

7.16) Internal Plaster: - All internal walls will have minimum 12 mm thickness of 1:4 "Dhada plaster applied with Gypsum punning / Hall & grooves at skirting level.

7.17) Tiling: -

7.17.1) The flooring will be Vitrified tiles laid to proper line and level as per the instructions of the Architect in 1:4 cement mortar with mirror finish for the same, and skirting shall be provided for the same of 3" or 4" height in neat cement float, flush with the wall. Dry balcony should be provided with anti-skid tiles.

7.17.2) Dado of Toilets, Kitchen walls shall be fixed in vitrified tiles with 1:4 cement mortar fixed in line and level. Joints shall be filled with grouts and cleaned properly.

7.18) Terrace Waterproofing: - For the terrace, staircase cabin, waterproofing work shall be carried out in three layers viz first, chemical coating over the slab surface (2 coats) of Polyalk (W.P.) of Sunanda Chemicals / Roffe/ Dr. Fixit chemicals slurry, then old seasoned brick bats shall be laid to proper slope of average 4" thickness in 1:4 c.m. and over the same, IPS shall laid in 1:4 c.m. 1½ average thickness with China chips laid over the same in 1:4 c.m. and terrace laid to proper slopes. During every stage, water ponding test shall be carried out to test the water proofing treatment. Water proofing chemicals shall be added during the execution of the treatment as recommended by the manufacturer Developer shall give 7 years guarantee against leakages. Terrace parapet wall top will have inside slope and will be covered with kadappa slabs to avoid seepage.

7.19) Kitchen Platform: - The kitchen platform shall be parallel or L shape, of minimum width of 2’-3" and service platform of 1-6 to 2'-0" as per Society's requirement. Sink will be stainless steel. Below the platform, white glazed tiles will be provided. Tiles of reputable make shall be provided above the kitchen platform and for the full height of other walls (up to beam bottom). The design details as per Architect.

7.20) Fire Fighting: - All the requirements laid down to obtain "No objection certificate issued by the Chief Fire officer of KDMC., shall be strictly complied with by the developer. Also all necessary Fire Fighting Equipment should be installed at all necessary places in the building.

7.21) False ceiling: - False ceiling in every flat and common lobby to be provided to cover the sprinklers.

7.22) Concealed Plumbing: - Water Supply, Drainage, Storm Water Drains and Rain Water Harvesting System. The Developer shall comply with all the conditions, rules and regulation enumerated in the approval letters issued by various authorities of KDMC. The work shall adhere to the ISI / National Building Code Specifications. All the work shall be executed by Licensed Plumber only.

7.23) Concealed Electrical Work: - The work shall be strictly as per the company's rules and regulations. It shall be executed by a Licensed Electric Contractor.

7.24) Lifts: - Lifts of adequate capacity and approved make shall be provided as per the P.W.D./KDMC requirement. The Lift pit shall be given waterproofing treatment to seal any leakage / seepage of underground water. All lifts to accommodate Wheelchair and at least in one lift per wing should be able to accommodate a hospital ambulance stretcher. Minimum two lifts per wing shall be provided. The number of lifts and its speed should be based on analysis for optimum waiting time.

7.25) Green building: - The proposed building will be certified green building (GRIHA / IGBC) thereby fulfilling all the required conditions such as solar equipment provision etc. All MoEF / EC conditions also to be complied with.

8. LIST OF AMENITIES

Following is the list of minimum amenities to be provided by developer in New Flats to be constructed for existing members of the Society. Developer can offer superior amenities. Extra cost for higher specifications or rebate, will be the sole responsibility of concerned member and the developer. However, on request, Society may ask Architect to resolve any problem that arises. Any change in base structure (RCC framework) will not be acceptable.

Amenities for the Flats of existing members shall not be of inferior quality relative to flats for Sale Area. All amenities to be identical for existing members and sale area occupants.

8.1) INTERNAL: -

8.1.1) The clear height of Flats in the New Building as per DC rules of TP for flats from the floor finish to bottom of upper slab finish.

8.1.2) Flooring - vitrified tiles for Lobby and Anti-Skid for Bathrooms and Dry Balconies & Staircases.

8.1.3) Living Room / Dining and Passages: - Vitrified Tiles of approved make, colour and pattern.

8.1.4) In all bedrooms and kitchen Vitrified tiles of approved make, colour and pattern.

8.1.5) Skirting - 3" high skirting of same pattern as that of flooring of rooms, flush with the wall, with a groove at the top of skirting.

8.1.6) Toilets and Washrooms (Should be Designer Toilet) - Full wall height up to beam bottom or slab level shall be of vitrified tiles approved by Society. Each Toilet and Washroom of same flat will have tiles of different colour and design. Toilets and Washrooms will have anti- skid flooring of approved make, size and colour. Selection of tiles to be approved by Society. Toilets can be Indian or Western depending up on each members' requirement.

8.1.7) Kitchen Platform - The 'L' type/parallel kitchen platform or Parallel type shall be in granite finish on kadappa base and stands, with stainless steel sink 21"x18". Vitrified tiles of reputable make shall be provided above the platform and for Society's instructions. Dado below platform will have 300mm x 300mm

tiles. Suitable highlighters shall be provided. The Cooking Platform width should be 25” to accommodate the 4-burner gas stove. The Service/Preparation Platform should also be 25” to maintain standardisation of the parallel platforms. The entire kitchen should be a modular one.

8.1.8) Windows – In case of sliding windows, sliding shutters to be designed such as to allow minimum 2/3rd of the window for natural ventilation, when fully slid opened. Providing and fixing branded PVC /anodized / powder coated sliding Aluminium windows with granite jambs for all sides of window including round moulding for all sides/ bottom side for out of wall surface. Aluminium sliding windows to be fixed inside the granite jambs. Double Patti pattern to be used. Soundproof windows i.e. DGUs (Double Glazed Units) to be considered for all external windows. Additional sliding shutters with Mosquito net to be provided for each window.

8.1.9) The size of section of Aluminium shall be heavy section type 25/27 mm series and 1.5 mm thick for windows up to 5'0" height. The windows above 5'-0" height, the section shall be 35 mm series and 1.5 mm thick the aluminium section shall be four tracks of approved make and shall be powder coated or colour anodized of required shade as approved by Society. One shutter shall be provided with mosquito proof S.S. wire mesh. The glass shall be 5mm thick, Tinted, of colour and quality approved by Society.

8.1.10) The toilet shall be provided with aluminium adjustable louvered / openable window with provision of exhaust fan of size 0.60m x 0.90m and with 5 mm thick frosted glass louvers with jambs as in other windows.

8.1.11) In every Living room / bedroom provision for split type air conditioner, fitting of compressor on external wall shall be made, not exposed in the elevation. Sleeve for piping for Split- AC should also be provided for Air Conditioner drain water provision shall be provided.

8.1.12) Doors for Flats: -Unless otherwise specified all door frame shall be of teak wood.

a. **Main door**- Size of main Fire Proof Door shall be 8'x4'6" or as approved, with 45 mm solid core block board flush door shutter or as required by CFO NOC. Door shutter finish will be with best veneer from one side while inside will have 1mm laminate. All fittings shall be brass oxidized/ Hinges 4 Nos. {4" size), 2 handles, one tower bolt 300 mm high, one

Godrej/ Yale 3 lock lever system, peep hole, stopper, Tadi / Aldrop C.P. Brass Lock. Finished with Melamine polish for frame and veneer portion. T. W. cover moulding, beading patti etc. compete. It should be a Safety Camera Door.

b. The Main door shutter/ Lobby door and it's hardware shall comply the requirements of Chief Fire officer's N.O.C. for thickness and finish.
c. **Safety Shutters**- On external side of main door frame there shall 1 ½" thick safety shutter with decorative S. S. grille, with brass hinges, one handle, polishing etc. complete.

d. **Bed room doors -** Size will be 3'6" x 7' 6" height or as approved with 2 ½" x 6" T. W. frame 35 mm solid core flush door with both sides 1.0 mm thick. laminate of approved colour and design, cover moulding, beading patti etc. Mortise Lock with handle, brass oxidized hinges 3 Nos of 4" etc. compete.
e. **Toilet Doors -** Size will be 2'-6" x 7' 6" height or as approved, Marine grade flush door shutter both sides finished with approved laminate locking arrangements, Handles, hinges of brass oxidized, glass to panel as per drawing, with Black Granite patti door frame round nosing etc. finished as per drawing. to accommodate Wheelchair bound senior citizens / residents with disability or prolonged illness.
f. **Kitchen Doors –** FRD doors as required by CFO NOC KDMC
g. **Balcony Doors** - Shall be soundproof fully glazed doors i.e. DGUs (Double Glazed Units).

Note: Lintol heights of all windows and internal doors shall be 7'-6" from finished floor level

8.1.13) M.S. / Aluminium Grill/Invisible Grill: M. S. heavy section -square bars/ flats I round bars box type grilles as per design shall be used for all windows and openings. Square 12 mm. bars shall be used for grille with weight not less than 3 Kg/ sq. ft. with Zinc oxide primer and then oil painting with three coats etc. complete. Grille shall have one panel Lockable and openable for evacuation in case of fire, as per fire norms. Alternatively, aluminium grill can be planned for full height (4'0" height) of window with in aluminium window

tracks, as approved by the Society. The grills shall be provided as per approval of KDMC.

8.1.14) Plumbing: –

a. The toilets to be provided with concealed cpvc best quality tested pipes, concealed tested fittings, approved make C P fittings with single lever three in one diverter, stop cock, dual flow concealed flush tank, angle cock, pillar cock, one bib cock with health faucet, overhead shower, etc. as per layout and at the junction of dado tiling. All sanitary ware shall be of approved brand, colour and shade.
b. Wash basin shall be fixed on a granite (approved by Architect) counter with rounded edges, polished mirror, etc. as per drawings.
c. All wash basins will have CP pillar cock, stop cock, bottle traps. Each toilet will have one wash basin. Gas fired / electric water storage geyser of approved make of minimum 20 litres capacity shall be provided in all the toilet blocks of existing Society members. The hot water geyser can be gas fired or electrical (20L capacity) as approved by the Society. Plumbing will also include servant's toilet and other sale area requirements as per the plan &design.

8.1.15) **Staircase** - Minimum 5'-0" wide or as per the KDMC/ CFO approval.

8.1.16) **Entrance Lobby**- The wall area shall be decorated with imported Italian marble dado up to beam bottom, marble patties design pattern. Decorative name boards, letter boxes for all flat owners, false ceiling with decorative light fittings shall be provided at agreed portion. A separate room for letter box in each tower.

8.1.17) RCC Loft to be provided in all Toilets (half the toilet length) as per requirement of Society members and complying with KDMC Rules. These shall be finished with cement plaster/ P.O.P. on top, and wall edge surfaces.

8.1.18) **Lift Lobby:** Granite fascia shall be provided around 'Lift' entrance. Round moulding, vitrified tiles, decorative patterns etc. have to be provided at each floor lobby. Tile / marble wall dado to be up to 5’-0” height minimum.

8.2) EXTERNAL WORKS

8.2.1) **Elevation Treatment**-The building should have a beautiful and breath-taking elevation including building illumination having low maintenance.

8.2.2) External Painting- External wall shall be finished with texture coat as per architect + one coat of Alkaline Based primer and two coats of paint, over the 'Spectrum' finish, with 10 years' warranty for the same. Anti-Fungal and anti dust paint of appropriate shade as per architect.

8.2.3) **Terrace** slab shall be treated with appropriate overdeck heat insulation to minimise heat gain at the top floor and shall be finished with China Mosaic (carpet pattern) tile top / high albedo paint, and water proofing treatment shall be as per technical specification attached.

8.2.4) **Paving in Open Space**-All the open spaces around the building except Garden, Water Harvesting system's area etc. will have 9" thick Rubble Soling with 4" thick concrete (1:2:4) finished with interlocking anti-skid chequered tiles as per pattern & design given by Architect and complying with KDMC Rules / CFO NOC.

8.2.5) **M. S. Compound Gates**- required with provision of wicket gates, to be provided as per approved design, along with R.C.C. decorative pillars, decorative lights etc. complete with painting, locking arrangement etc. Security cabin shall be planned.

8.2.6) **Landscaping & Garden** to be provided in open space with proper lighting arrangement, compound lighting, sitting spaces, play equipment etc. complete. Suitable energy, efficient luminaries and lighting to be provided in the open spaces.

8.2.7) **Fire Fighting** equipment's shall be provided as per statutory regulations in additional water tank of adequate capacity as per the rules and regulations of C.F.O.

8.2.8) **Inspection chambers** for drainage system shall be provided with heavy duty C.I. covers which can bear the regular traffic load and fire tender load along the fire tender path as per CFO NOC. 6" G.S.W. main drain lines along with 4" G.S.W. subsidiary to be laid, as per approved drawing layout, including Gully Traps/ I.C. chamber C.I. or U.P.V.C. down take pipes rain water and vent pipes etc., as per KDMC requirements. All formalities of 'P' Form, drainage approval, storm water, execution as per specification, License Plumber appointment and Fees etc. are to be borne by developer.

8.2.9) **R.C.C. Underground tank and Overhead Tank** of adequate capacities as required by KDMC shall be constructed as per Architect's plan, & with electrical pumps as per CFO NOC of required capacity of approved company, necessary electrical connection, and auto cut off system to avoid overflow of water.

Water tanks' internal walls shall be waterproofed and finished with ceramic glazed tiles along with suitable flooring of tanks to provide cleanliness & and for easy maintenance.

Being a flood prone area, the level of the top manhole covers of the UGTs shall be well above the local High Flood Level (as ascertained by KDMC), so as to avoid ingress of flood water into UGTs.

8.2.10) **Rain Water Harvesting-**The Developer shall provide Rain Water Harvesting system as per KDMC requirements, and obtain N.O.C. of all concerned authorities at his own cost.

8.2.11) **Strom Water Drains** in side of compound (and if necessary, outside the compound) to be provided by the developer as per the KDMC conditions, at his own cost.

8.2.12) **Charges** -Extra water charges, Drainage connection charges, sewer charges, passing of concealed layouts from KDMC, to be borne by developer.

8.2.13) Facilities- The Developer has to construct Society office, Servant toilets, Watchman's cabin, Compound Wall, Main Gate with lighting, small wicket Gate, bore well as per Layout and illuminated Building Name Board at his cost.

8.2.14) **Gas Connection**-The piped gas connection from Mahanagar Gas Ltd (MGL), shall be provided by developer for each kitchen and bathroom. Locations of the vertical gas pipes to be pre-determined through ventilated shafts and coordinated with MGL authorities such that the pipes are not seen in the external elevation and easily serviceable by MGL.

8.2.15) **Telephone line, Cable or Dish Antenna, Internet** connections shall be disconnected and reconnected by the developer, at his own cost.

8.2.16) **Pest control** & mosquito sprays before and during progress of work shall be done regularly by the developer.

8.2.17) **Security Intercom Facility, Video Door Phone System** in all flats connected to Society office and security cabin - main gates of the Society premises to be provided by developer at his own cost along with CCTV camera at entrance with connection to each flat as above. Door video phone will be multi apartment type. Internal screen communication panel with video and audio connectivity to be to Main gate/s of the Society premises. The panel also to have control to open of building lobby door. CCTV should cover all common areas like parking lots, children's play area, compound wall, staircase landing.

8.2.18) **Solar Water Heater** shall be provided at terrace level.

8.2.19) **Solid Waste Management system + Provision of Vermiculture** as per KDMC regulations shall be done by the developer.

8.2.20) **New decorative compound wall** around the plot shall be constructed as per Architect's design by the developer, at his own cost.

8.2.21) **Pre-Construction Anti-termite Treatment** as per I S. specifications shall be carried out from well-known Pest Control co. for the building/s with 10 years Guarantee from the company.

8.2.22) **Lightning Protection** to be provided as per IS standards.

8.2.23) **Provision for Solar Photo Voltaic cells** above the terrace level and space provision for electricity storage batteries.

8.2.24) Society's drainage and STP system should be of high standards and of adequate capacity to avoid any choke ups or any other mishaps.

8.3) ELECTRICALS: -

Upgrade all meters of the member to three phase meters from Single phase (Non- Smart Meters only), to accommodate the higher power requirements for a bigger house.

8.3.1) Foyer: -

a. Light point above Main door on the outside (lobby side)
b. 1 outdoor light point with switch inside the house
c. Video Door Phone and intercom
d. Ceiling light point

8.3.2) **Living Room with Dining**

a. T. V. I Cable point as per layout.

b. At least four light points.
c. Plug points for T.V.- minimum 4 nos, extra point provision for set top box & home theater.
d. 2 / 3 fans with Regulators as per room size and layout.
e. 32 Amps dp with switch and socket for AC with core cutting for AC ducting Internet connection should be centrally located for optimum range of Wifi
f. Plug points - min 2 nos. per switch board except TV side.
g. Power saver light that switches on when the main door is opened.

8.3.3) **Kitchen**

i 2 Light Points

ii 2 light points at 1500 mm height i.e. mid level (below over head storage level) for counter top lighting

iii One Fan with Regulator.

iv 20 Amp Plug / Power Points for -

a. Washing Machine.
b. Fridge
c. Aqua Guard
d. Microwave

v Dish Washer

vi 16Amp power point - 3nos for aqua guard near sink

vii 6 A plug point - 3 nos for mixer / grinder

viii Exhaust Fan/ Chimney as per Society's decision

8.3.4) **Bed Room/s**

a. 4 Light Points (out of which 1 with a two-way switch)
b. One fan with Regulator (2 way switch)
c. TV point cable point
d. 2 nos switch + socket for TV and Set Top Box
e. 2 nos switch socket i.e. one on either side of the bed
f. 2 nos swith socket for study table
g. Doorbell/ buzzer

h. 1 20 amp point for electric Iron

8.3.5) **Toilets**

i Minimum 2 Light Points (1 no general + 1 above wash basin)

ii One exhaust Fan

iii Plug / Power Points for -

a. Electrical hot water geyser with 32 amp trip switch

b. Electrical shaver / hair drier 7.3.6) Light Point outside main door

8.3.6) Light point outside main door

8.3.7) Light point for balcony (if applicable) + 1 no. plug point.

8.3.8) Light Points outside living room/ bedrooms window chajja with control switches on the inside

8.3.9) Light point in passage

a. "Havells / Legrand MCBs and ELCBs for each room separately.

8.4) One point/ R J 45 socket in each room for internet. Separate electric meter for Lifts, water pumps and other common areas. (Separate for KDMC water and Bore well water)

8.5) Separate extra conduit from ground floor (from meter room) up to terrace level floor for additional wiring needed, if any, in the future.

9. LIST OF APPROVED MATERIALS / BRANDS

Sr. No.	Material	Approved Brands
1	Cement	OPC grade 43/53 ACC, Gujarat Ambuja, Ultratech, Citratech, Binani
2	Concrete	Ready-mixed concrete for RCC work from their plants, which are subject to periodic third-party quality inspection/ audit. Site mix of concrete shall be allowed as per instructions of consulting engineer
3	Reinforcement steel	Corrosion resistant quality reinforcement from first supplier with yield stress not less than 415 N/sq. mm and engineering of properties conforming to requirements of earthquake resistance. Approved brands Tata Steel, Gurunank, metro ispat, guardian
4	Sand	Well graded river sand conforming to IS 383 with silt
		Content less than 3% must be washed before being used.
5	Concrete additives	Foscroc, Krishna Conchem, “Sunanda” Chemicals Dr. Fixit
6	Polymers	Foscroc, MC Bauchemie, “Sunanda” Chemicals Dr. Fixit
7	WP compound	Roff., MC Bauchemie, “Sunanda” Chemicals Dr. Fixit
8	Repair Mortar	Foscroc, Krishna Conchem, “Sunanda” Chemicals Dr. Fixit
9	Plasticizers	Foscroc, Krishna Conchem, “Sunanda” Chemicals Dr. Fixit
10	Epoxy	Ciba, Choksy
11	Water	Potable water free from organic or any other deleterious Substances.
12	Bricks	ordinary clay bricks conforming to IS 1077 with minimum crushing strength not less than 35 Kg/sq.cm. and water absorption not more that 20%
13	Light Weight Concrete Blocks/AAC	Siporex, Aerocon, Fly-o-Crete
14	Waterproofing compound	Fosroc, Perma, MC Bauchemie, Impermo, roff
15	White cement	JK white, Birla
16	Door Hardware	Europa, Enox, Ebco, Dorset
17	Glazing	Modi guard, Asahi India, Saint Gobain
18	Flush & Panel Doors-ISI mark	Sojpal, Anand, Wood crafts, Shreeje
19	F.R.P. Doors	Advance Marketing, Sintex, Mosonite (Dupont)
20	CI pipes	Neco

21	PVC pipes-CPVC and UPVC	Supreme, Prince, Finolex conforming to IS 13592 with weight of pipes not less than 6 kg/sq.cm.
22	Gl. Pipes	C cass of Tala & Zenith with weight of pipes not less than values given below
	a) ½" dia.	1.51 Kg/m
	b) 3/4 "dia.	1.97 kg/m
	c) 1"dia	3.08 kg/m
	d) 1-1/4" dia.	3.97 kg/m
	e) 1-1/2" dia.	4.58 Kg/m
	f) 2" dia.	6.38 Kg.
23	Plumbing Fixtures	Jaguar Florentine/ hindware
24	Sanitary fixture	Parryware, Hindware
25	Chamber cover	Thermo drain 40t, NECO
26	Flooring &Wall Tiles	RAK Ceramics, Johnson carbonite, Nitco Kajaria tiles
27	Electrical wires	Polycab, Finolex
28	Electrical fixtures	Anchor Roma, Crabtree Athena series or Legrand -My Iris
29	Gate valves	Leader
30	Ceiling /Table fans.	Crompton, Orient, Havells
31	Pump	Best & Crompton, Crompton WASP, Kirloskar
32	lifts	Schindler / Kone / Otis / Mitsubishi
33	home security	Legrand
34	Exterior Paint	Asian Paints -Apex Uitima/Dulux Weather shield Max
35	Interior paint	Dulux Velvet Touch, Asian paints -Royale
36	Water sewage & fire pump	Kirloskar Grund foss
37	Gun metal valves & Fittings	Premier, Leader
38	G.I. Fittings	RR UnikKirti Gujrat Steel
39	Butterfly valves	C&R Audco.
40	Water meter	Leeds Capstan. Kent
41	C.I. Manhole Covers and Grating	Ashok Foundary, NECO

Notwithstanding the above-mentioned materials, material finishes and specifications, the final materials, finishes and specifications shall be the same as that provided to the sale customers and as finally agreed by the Society and developer.

10. APPLICABLE CODES AND SPECIFICATIONS

The following specifications standards and codes, are made a part of this contact document. All standards, Specifications, codes of practice referred to herein shall be the latest editors/revisions. In case of any discrepancy between the enclosed specification and those referred to herein, the former shall Govern: -

IS: CODE NO.	DESCRIPTION
1. EXCAVATION AND EARTHWORK	
IS -783	Code of Practice for laying concrete pipes
IS-2120	Determination of Water Content / Dry Density
IS—3385	Code of practice for measurement of Civil Engineering works
IS-3764	Safety code for excavation Work
IS-4081	Safety code for blasting and related drilling operations
IS-10379	Code of practice for field control of moisture and compaction of soils or embankment and sub-grade.
2. CONCRETE AND ALLIED WORKS	
IS-383	Coarse and fine aggregates from natural sources for concrete
IS-456	Code of practice for plain and reinforced concrete,
IS-516	Methods of test for strength of concrete
S-1199	Method of sampling and analysis of concrete.
IS-1489	Portland-Pozzolana cement
IS 1786	High strength deformed steel Bars and wires for concrete Reinforcement
IS 2386	Methods of test for aggregates for concrete
IS-2430	Methods of sampling of aggregates for concrete
IS-2571	Code of practice for laying in situ cement concrete flooring
IS-2645	Integral cement waterproofing. Compounds
IS-3370	Code of practice for concrete structures for the storage of liquids.
IS-4925	Concrete batching and mixing plant
IS-4990	Plywood for concrete shuttering work
IS-8042	White Portland cement
S-10262	Recommended guidelines for concrete mix design
S-8112/ 12269	ordinary Portland cement (M43 & M 53 grade)
3. CONCRETE REINFORCEMENT AND ALLIED WORKS	
IS-432	Mild steel medium tensile Steel bars and hard drawn steel wire for concrete reinforcement
IS-800	Code of Practice for General Construction in Steel
IS-875	Dead Loads Unit Weight of Building Material and Stored Material Imposed Loads. Wind loads
IS 1121	Methods for tensile testing of steel wire.

IS 1608	Method of tensile testing of steel products.
IS 1642-43.1644	Code of practice for fire safety of building
IS 1791	Batch Type Concrete Mixers
IS-1893	Criteria for earthquake resistance design of structures.
IS -2502	Code of practice for bending and fixing of bars for concrete reinforcement
IS-2506	Screed Board Concrete Vibrators
IS-2722	Portable Swing weigh batchers for concrete (single and double bucket type)
IS -2751	Code of practice for welding of mild steel plain and deformed bars for reinforced concrete construction.
IS—2911	Code of practice for designs and construction of pile foundation.
IS-3025	Method of Sampling and Test (Physical and chemical) for water used Industry.
IS : 3558	Use. Of Immersion Vibrators for Consolidating Concrete
IS 3664	Non-destructive test
IS-3696	Safety code for scaffold and Ladders
IS-4326	Earthquake resistant design and construction of building
IS—4634	Method of testing Performance of Batch. Type Concrete Mixers
IS-5816	Destructive test
IS-8112	Ordinary, Portland Cement (OPC) Grade.43 Cement
IS-8989	Safety code for erection of concrete framed structures
IS-13920	Ductile Detailing of Reinforced Concrete Structures subjected to Seismic Forces-Code of Practice
4. MASONRY WORK	
IS-1077	Common burnt clay building bricks
IS-1597	Code of practice for construction of stone masonry
IS-1905	Code of practice for structural safety of buildings. Masonry walls.
IS-2116	Sand for Masonry Mortars.
IS-2212	Code of practice for brick work
IS-2250	Code of practice for preparation and use of Masonry mortars
IS-2394	Code of practice for application of lime plaster finish
IS-2572	Code of practice for construction of hollow concrete block Masonry
IS-2645	Integral cement water proofing compounds
IS-3495	Methods of tests for burnt clay building bricks
IS-5454	Methods of sampling of clay building bricks.
5. PLASTERING AND POINTING	
IS-1542	Sand for plaster

IS-1661	Code of practice for application for cement and cement lime plaster finishes.
6. PAVING, FLOOR FINISHING AND DADO	
IS-777	Glazed earthenware tiles.
IS-1237	Cement concrete flooring tiles.
IS 1443	Code of practice for laying and finishing of cement concrete flooring tiles,
IS-2114	Laying in situ terrazzo floor finish.
IS-2571	Laying in situ concrete flooring

11. DECLARATION BY THE BIDDER

Date: - ___ / ___ / 2025

To,
The Chairman/Hon Secretary,
Siddhivinayak Residency A, B, C, D & E Wing Co-Op. Housing Society Ltd.
Kalyan Shil Road, Near Tata Power,
Dombivali East - 421203

Subject: - Proposed Redevelopment of Siddhivinayak Residency A, B, C, D & E Wing Co-Op. Housing Society Ltd.

Dear Sir,
I/We have studied the **TENDER DOCUMENTS** along with terms & conditions, special conditions, specifications of various items, requirements regarding redevelopment work of your Society. I/We have also visited the actual site of work and examined every aspect of construction project.
I/We agree to all your Terms & Conditions. The required information as regards financial standing, details of our technical staff, experience in this field etc. have been submitted to you vide our Expression of Interest (EoI) submitted on_____ and shall be deemed to be part of this offer. Any documents not submitted with the EoI are submitted herewith as a part of our offer.
I/We hereby submit our offer as under;

1) I/We confirm that our firm / company is registered with RERA and our registration number is ____. Also I / We confirm that our firm / company is not blacklisted by RERA.
2) I/We confirm that our firm / company is in this business since _____ and have completed / have ongoing ____ projects.
3) I/We confirm that there are ____ legal cases on us pending in the court whose details are attached with this document. / I/We give an affidavit

(attached with this document) that there are no legal cases on us at the time of submitting this tender bid.

4) I/We are submitting last three years' financial statements with this document.
5) I/We agree to provide each existing members of the Society (in all about 102 residential members and 33 shop members) one unit each of agreed carpet area (existing + extra) free of cost. Only, after providing flats/ shops to each existing member with the additional area built by us, I/We can sell balance area (Sale Area) in open market and appropriate the proceeds from sell of such area. I/We agree that I/we will not handover possession of such additional sale area, prior to the handing over vacant possession of the said about 135 newly constructed units to the existing members of the Society. Irrespective of the fact whether such new sale area is sold or whether any dispute exists with such purchasers, I/we undertake to construct the said about 135 units for the existing members and handover vacant and peaceful possession thereof to them in stipulated time.

6) I/We propose, free of cost, extra MOFA carpet area, over existing carpet area, for existing residential members and shop members as follows:
   For each unit _____%

7) I/We will pay a sum of Rs. _____ Per sq. ft. of existing MOFA area as mentioned in Section 13 Hardship Compensation to the Society/ members.

8) I/We also hereby agree to pay rent to, each residential member at the rate of Rs. _____ on existing carpet area per month alongwith a deposit of Rs. _____, and each shop member at the rate of Rs. _____ along with a deposit of Rs. _____ with an increase of _____% after each year on existing MOFA carpet area per month as a reimbursement of the cost of alternative accommodation for a period of _____ months, till completion of building in all respects, and handing over of possession of newly constructed units to the members after receipt of Occupation Certificate from the KDMC and or other local authorities. The compensation for 12 months shall be paid in the form of consolidated cheque before vacating current premises. The rental for

next __ months (i.e., 13th month to __th month) shall also be paid by monthly Post-Dated Cheques annually one month in advance. Payment to be done directly to the members under intimation to the Society. I/we shall pay Rs. _____ for Shifting (packing up), to & fro transport of household items, furniture etc. to each residential members for his/her/their alternative accommodation.

9) I/We hereby agree to provide an irrevocable & unconditional Performance Bank Guarantee from a nationalized bank for an amount of . Rs. _____(Rupees _____only) to the Society before the Society hands over vacant possession of the Society's plot to me/us. . I/We agree that the said Bank Guarantee shall remain in force through the entire Construction Period and till the expiry of the Defect Liability Period and shall be released progressively as mentioned in the Special Conditions of the Tender.

10) I/We will complete the re-development/ re-construction work within a period of __ months from the date on which we receive the vacant possession of the site of work.

11) For any delay beyond these __ months, I/we shall pay liquidated damages at Rs. _____/- per week of delay in addition to penalties levied by MahaRERA authority and rent for extended period.

12) By any reason if the Project is not completed within __ months from the execution of this Redevelopment Agreement as provided hereinabove then I shall pay penalty of Rs. _____/- per month to the Society till the actual physical possession along with the Occupation Certificate/ Part Occupation Certificate to the members of the Society. The payment of penalty is in addition to the liability of the Developer to pay monthly compensation in lieu of temporary alternate accommodation during the transitional period. Also, if required, the Society can encash the Bank Guarantee.

13) I/We agree to pay a sum of Rs. _____/- against execution of the Development Agreement towards Security Deposit as a security for performing the terms & conditions of contract which shall be retained by the Society until the expiry of the Defect Liability Period.

14) I/We agree to provide one car parking space or as per requirement of DCPR 2034 or any statutory requirement. whichever is more per member of the Society as per KDMC norms.

15) I/We agree to provide all the amenities and facilities as mentioned in this tender document / agree to provide amenities and facilities whose list is as attached with this tender document.

16) I/We agree that we will use only branded materials for construction in all areas.

17) I/We agree to give a discount of ____% to any existing member who wishes to purchase any additional area beyond the allotted increase.

18) I/We agree to pay to the Society a corpus fund of Rs. _____ per member and will not charge any maintenance to the existing members while handing over the flats / shops.

19) I/We agree to obtain comprehensive insurance coverage from a reputed company for the entire project until completion.

20) I/We agree to ensure that I/We will not do any illegal construction in the premises.

21) I/We agree to utilize maximum F.S.I. of or otherwise as per prevailing regulations plus "Fungible Area" in construction irrespective of the availability of additional F.S.I. I/We understand that if any additional F.S.I. is available after execution of the Development Agreement , then the benefit of the same shall be utilised/used by the Society as it deems fit.

22) I shall not mortgage the plot of the Society or any part thereof for any reason.

23) I/We will at our own cost, risk and responsibility get the plans for such redevelopment / re-construction approved by all concerned authorities (Govt., Semi Govt. etc.) through our Architect without damaging the

Society's interests carry out construction as per such approved plans and shall observe and abide by all the rules & regulations concerning the same. While getting the plans approved, I/we will abide by the conditions and specifications stated in Tender' Documents of Society.

24) I/We agree that we shall get the plans approved for maximum FSI and fungible available thereon in the name of the Society.

25) I/We agree that before commencing demolition work, I/we will ascertain through my/our structural consultant, the mode of demolition work and adopt such method which will cause minimum in convenience or nuisance to residents of adjacent properties. I/We are ready to make good any damages done to adjacent properties/ cracks etc. developed during the said demolition, at my/ our cost.

26) I/We agree to commence the demolition work as soon as possible, after receiving the complete vacant possession of the said plot and the said building, in any case not later than 14 days from the date of receiving of such possession.

27) I/We agree to register the project with MahaRERA after receipt of Commencement Certificate.

28) Parking space shall be provided in the stilt area and the podium. Open parking areas are properties of Society and I/we will not allot them to our purchasers or any individual member. All visitor's parking spaces shall not be allotted to our purchasers and shall be handed over to the Society for purpose of visitor's parking.

29) I/We confirm that I/we have read the General & Special Conditions of the Tender, other terms & Conditions, Specifications of all items, Technical Specifications, Amenities etc. forming part of this tender, and have understood the contents and meaning properly and I/we shall duly abide by the same. I/we have submitted this offer to you after reading and following the said conditions/ specifications and of my/our own free will.

30) In the event my/our aforesaid offer is accepted by the Society, I/we agree and undertake to execute, complete and handover the re-development work within the stipulated period. I/We agree and undertake to abide by the terms of the Development Agreement, which will be signed between myself/ ourselves & Society/ individual members. I/We also agree that if I/We are not able to complete the re-development work within the stipulated time period then whatever decision is taken by the Society will be binding on I/We including termination of the re-development contract for which I will not be receiving any sum from the Society.

31) I/We agree that I/we would be permitted to commence work only upon execution of Redevelopment Agreement.

32) Till the Redevelopment Agreement is executed between the Society and me/us, no valid agreement shall be deemed to have been arrived at between myself/ourselves and Society.

33) I/We agree to pay in full all the necessary premium / charges and incidental expenses of the KDMC towards utilization of additional FSI available.

34) All taxes, dues, duties, cess, levies, GST, Land Under Construction Tax etc. that may become payable in connection with work undertaken by me/us, shall be borne and paid by me/us alone. Stamp duty and registration charges including any out-of-pocket expenses towards registration of Redevelopment Agreement and for new flats of existing Society members (PAAA), including any GST that may be applicable on existing/ incremental carpet area shall be borne by me/us.

35) All statutory i.e., Government & KDMC approvals charges & fees, permanent deposits, temporary deposits, recurring bills of Electric Charges, temporary & permanent supply, commercial bills on temporary meters for electrical & water supplies, fees for insecticide department etc are to be borne by me/us.

36) I/We shall obtain Completion Certificate (CC) and Occupation Certificate (OC) before handing over the building and handover all the original documents to the Society.

37) I/We shall ensure to complete of the Society Conveyance Deed within a period of one year from the formation of the new Society.

38) I/We agree to handover the sales office to the new Society and will not give the same to anybody for any purpose including sale of that area.

39) I/We will have to arrange for temporary / permanent water and electric supplies required for execution of works. I/We shall bear all expenses for temporary / permanent water and electric supplies and sewerage charges for building to be so constructed.

40) I/We also agree to observe and perform all current rules & regulations and laws with regards to the redevelopment and construction works, including environmental laws.

41) I/We shall comply with all the rules & regulations of Workmen's' Compensation Act and other labour laws which may be in force at the time the work is in progress. The Society will be kept indemnified by me/us against any claims/ actions/ suits in this regard.

42) I/We shall take contractor's all risk policy, deposit it with Society and renew it from time to time till the work is completed.

43) My/our offer shall be firm and shall not be subject to any Escalation / Variation, labour condition etc. and shall hold good till completion of works and handing over the possession of the new building with the Occupation Certificate.

44) The terms & conditions set out herein and / or the acceptance letter shall be on basis of my/our respective rights & obligations.

45) I/We are aware that the Society alone has right to accept or reject all or any of the offers without assigning any reason. The Society's decision in this regard shall be final and binding on me/us and I/we shall have no right to challenge the same in any court / office.

46) I/We confirm and declare that no action has been taken or proposed to be taken against me/us or any of our partners / directors by any Govt. or statutory agency with regards to violations of any laws, rules or regulations or relating to any of my/our construction projects which are presently in progress or which have been completed and neither me/us nor any of our partners/ directors have been banned or prohibited or black listed by KDMC or any state or central government or statutory authority from carrying on the construction activities. (I/We are submitting an Affidavit to this effect).

47) If any action is taken by the statutory authority on account of non-compliance/ default/ negligence on part of me/us the Society will not be held responsible in any manner for the same. All risks, costs, penalties and any other consequences arising due to above default by me/us shall be my/our responsibility and liability in totality.

48) I/we fully understand that notwithstanding any communication, documents etc exchanged between the Society and myself/ourselves, our offer is deemed to have been accepted only after the execution of the Development Agreement between the society and myself/ourselves.

49) I/We agree that we will not transfer / sublet the said project to any other Developer and complete the project on my own.

Thanking you,
Yours Sincerely,
(Signature of the Developer)
